THE AFRICA Experience

Additional Activities

Star beds
Spend an evening under the stars at Star Beds, an elevated platform overlooking a watering hole - the night begins with a "Koro Kocktail" and scrumptious homemade snacks. While the sky darkens and the nocturnal sounds filter through, settle in and allow the peace to rejuvenate your soul. With only a mosquito net between you and a million stars, this is by far, Africa at its finest!

Research
Join resident Koro researcher Sander Vissia for an exploration into the lives of the Koro leopard, brown hyena, spotted hyena and other elusive species. More than 20 camera traps capture the secret moments of the Koro wilds and you can be a part of this vital ongoing study! Should you see one of the species we identify and record then you can participate by filling in an identikit and mapping its location.
At Machangulo during the right season, you can join the resident turtle researcher in this highly sensitive research project, truly a unique opportunity.

Magical Sundowner
Looking for some tranquility and a chance to repose? At Koro sharing the unique and fascinating landscape is one of our greatest pleasures and there is no better opportunity to do this than at sunset! Under the comforting presence of one of Tuli's famous Giant Baobabs we set up a delightful sundowner choice replete with hearty snacks, fireside picnic blankest and comfy chairs. As the light softens over the koppies a calmness descends across the dramatic vista, if you are still and listen closely you can be sure to hear the secrets of this ancient landscape and perhaps allow time for your own thoughts…
They say, once the sea has cast its spell, it holds one in a net of wonder forever! We can attest this. With a cocktail in hand take the opportunity to bid the day farewell to the sound and feel of lapping waves and absolute stillness!

A walk in the Wilds - "One step at a time is good walking." ~ Chinese Proverb
A walk at Koro can be described more as an exploration, an investigation than a route march! the pace is determined by the slowest walker as well as what the wilderness is telling us. Some grass bent here, fresh spoor there, a crack in the undergrowth…these are the elements that determine our path…
Our senses are alive and the feeling of hot soil underfoot is tantamount to feeling the very pulse of Africa.

Riverside Wellness -
Indulge in some well-deserved pampering, a massage to the background song of the Limpopo River. Using the fabulous Godding & Godding products that integrate the delicate balance of pure silk…these will enhance the body's natural absorbance deep down to the lower epidermal layers and into the blood stream, so providing greater re-hydration, nourishment and elasticity to your skin. Silk's proteins assist in the healing of the skin and will keep it in good health. Enjoy a chilled beverage of your choice as you awaken from dreamy bliss!

By boat or Dhow – that is the question –
At Machangulo we can arrange a deep sea fishing excursion, a whale watching expedition or even a mellow Dhow trip, whatever takes your fancy we can make it happen.
