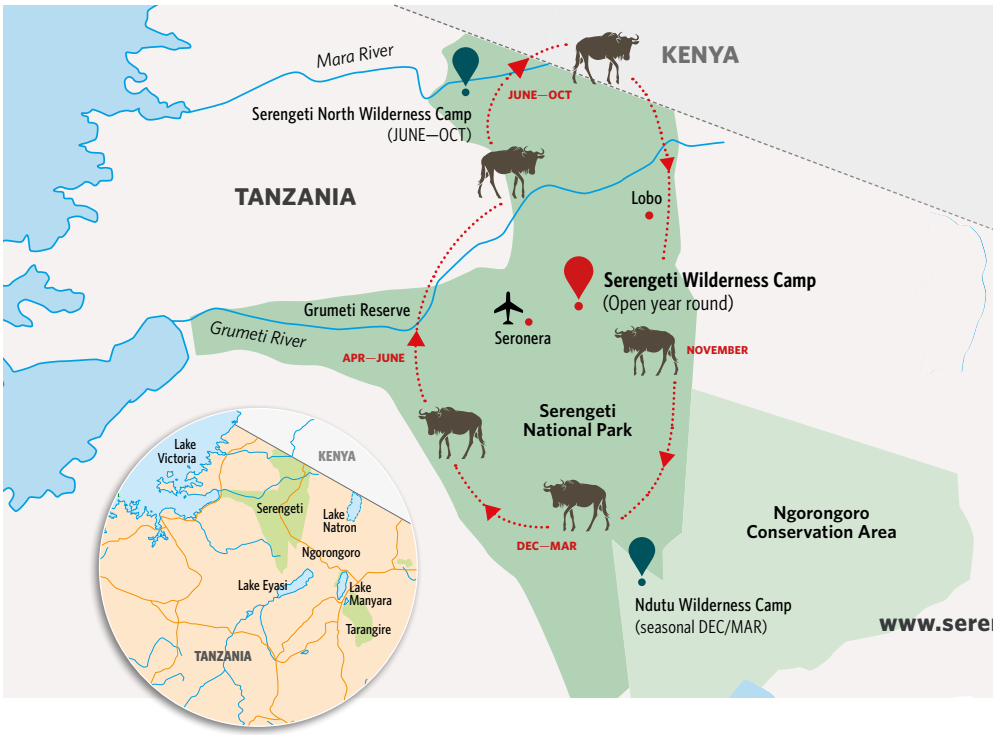
SERENGETI
WILDERNESS CAMP

Welcome to SERENGETI WILDERNESS CAMP

Our classic tented camp in central Serengeti boasts a prime location overlooking a wildlife-rich valley with a permanent water source. Relax in peaceful seclusion away from the busier central areas, while still enjoying easy access to prime game-viewing spots. With abundant resident wildlife, high predator activity and the migration often passing through camp, you'll savour superb food, a relaxed atmosphere and warm Tanzanian hospitality. Carefully designed to minimise its environmental footprint, this eco-friendly camp uses solar power for lighting and gravity-fed, solar-heated showers to conserve water.



LOCAL AREA

Seronera's network of river valleys supports a rich wildlife population including big cats, elephants and buffalo herds. Birding in the area is highly rewarding, and a balloon safari offers a breathtaking bird's-eye view as you float above the Serengeti plains.

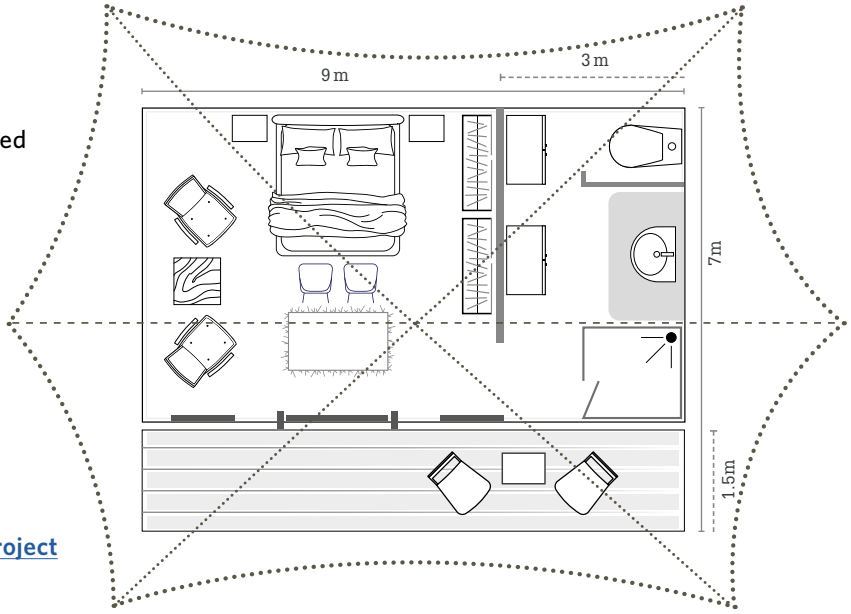
STAY CLOSE TO NATURE

Ten generously sized canvas tents (9m x 7m) each feature a full-length verandah and are well spaced for privacy. Inside, bright and airy interiors are styled with natural tones, offering a comfortable retreat immersed in the bush. Each tent includes a large en-suite bathroom with a flush toilet, gravity-fed hot shower, and basin with vanity. Unwind on your private verandah – an ideal spot for watching passing wildlife. Our family tent is ideal for families with young children (min age 6 years).



YOUR STAY MATTERS

A portion of every night spent on safari with us contributes to our Sustainable Tourism Fund, supporting amongst others the Kilimanjaro Tree Project and The Serengeti De-snaring Programme.

AT A GLANCE

Nyabagoti, Central Serengeti

40 minute drive from Seronera airstrip

3–4 hour drive from Ngorongoro, 8 hours from Arusha
