FALL IN LOVE WITH BOTSWANA'S WILDERNESS

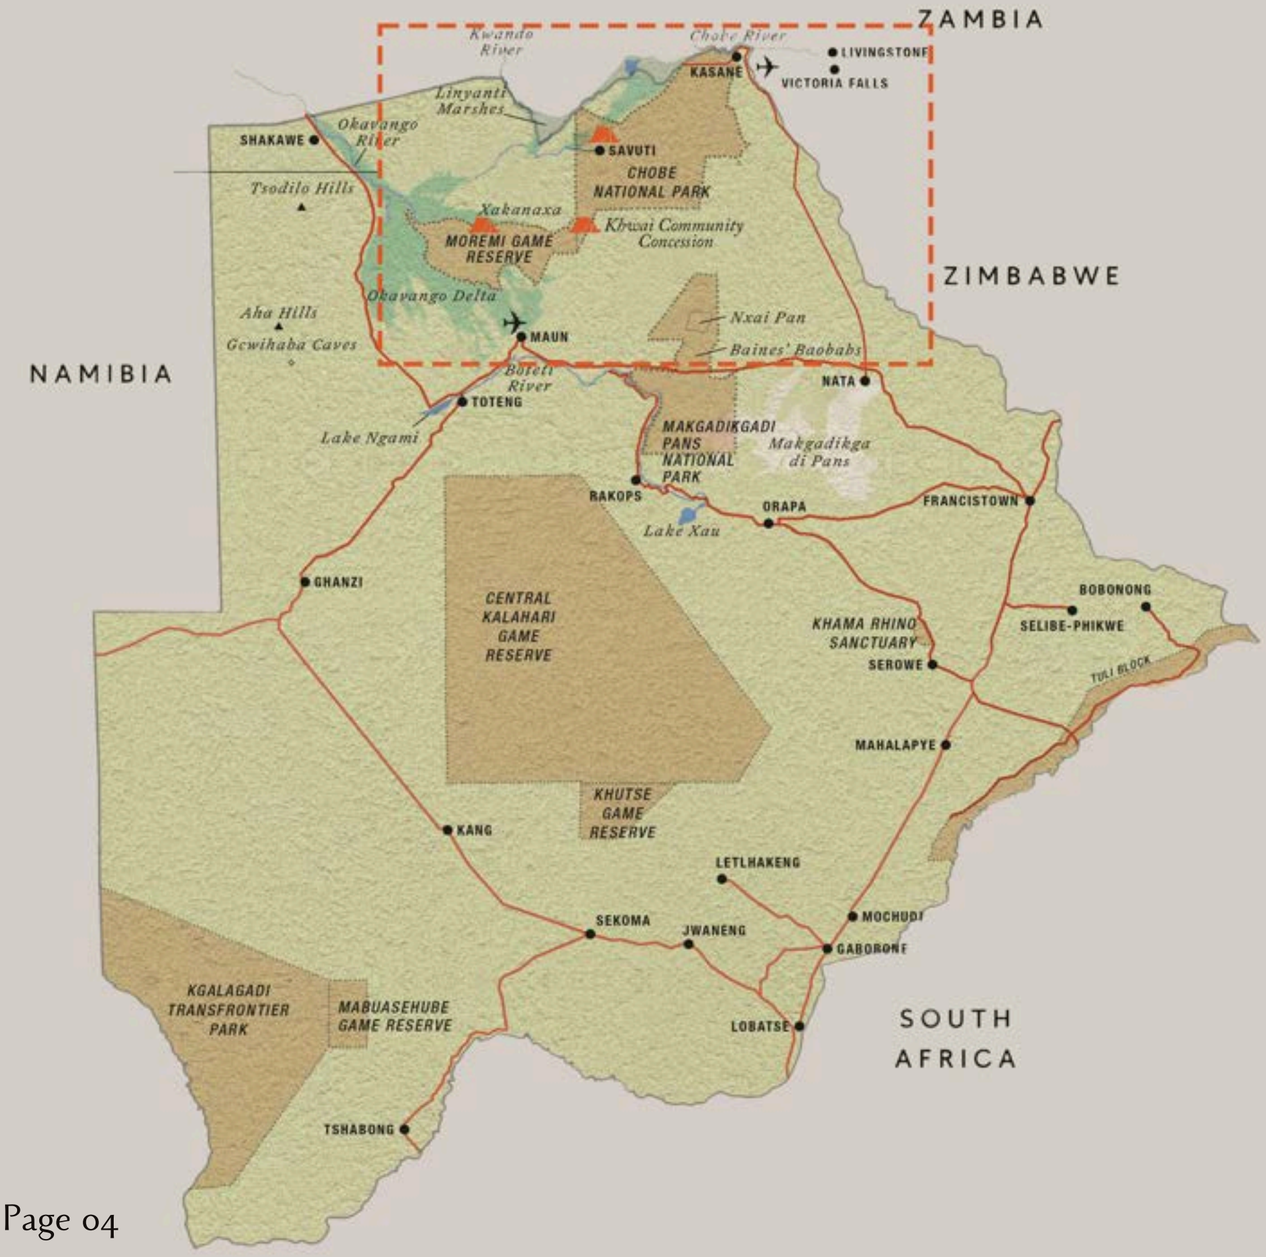
Brave Africa Safaris is a boutique, luxury mobile safari company operating in Botswana's Okavango Delta and Chobe National Park. We are ideal for guests seeking an authentic under-the-canvas safari experience while still craving the comfort and convenience of a fully serviced safari lodge. With limited guest capacity (six tents and twelve guests), personalized service and passionate care are a guarantee and a commitment we uphold.

Crafted by safari enthusiasts, guests will love our intimate, tented camp that is all about becoming fully immersed in the sights, sounds, and smells of the Botswana bush. We focus on high-quality guiding, including fully customizable game drives (no set schedules or itineraries). Our priority is spending time with the wildlife, not at camp. And it is not just game drives. Guests can also enjoy walking safaris, mokoro, village visits, and more.

Brave Africa Safaris harkens back to the romantic adventure of the safaris of yesteryear. Guests who stay with us spend their days seeking out animals, basking in the sun, and enjoying the tranquility of unspoiled wilderness. It's how a safari was always meant to be experienced!

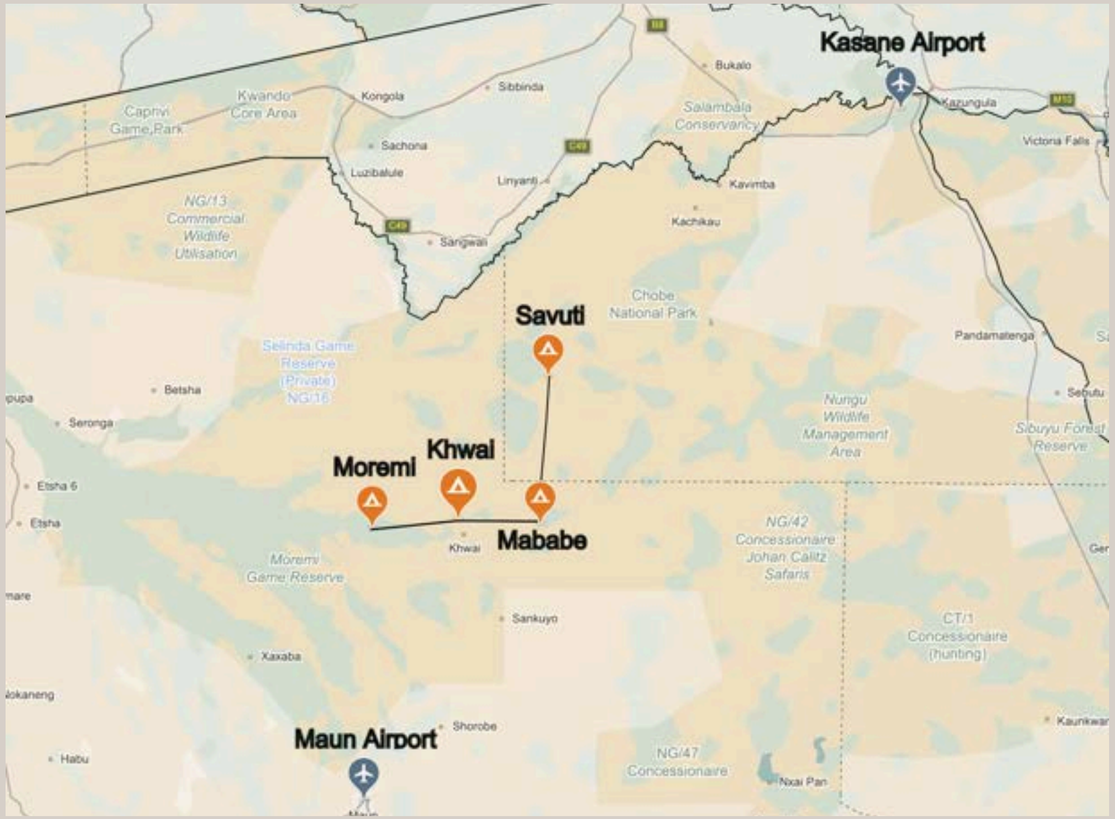
Designed for intimate parties, couples, and families, Brave Africa truly allows guests to reconnect with nature and uncover the magic of Botswana!

OUR DESTINATIONS



Botswana is known for its diverse wildlife and stunning landscapes. It has almost double the elephants of any other country in Africa—over 130,000—along with more than 550 species of birds and 163 species of mammals, including lions, leopards, cheetahs, African wild dogs, buffalo, giraffes, hippos, wildebeest, zebra, rhinos, and more.

With approximately 40% of its land dedicated to conservation, a safari in Botswana is synonymous with privacy and untouched wilderness. It is the ideal destination for getting away from it all!



Moremi Game Reserve

In 1963, Moremi Game Reserve became the oldest and first protected game reserve within the Okavango Delta. Few other places have so many ecosystems that seamlessly coexist and in such seclusion. From mopane woodland to floodplains, sparkling lagoons, winding rivers, and acacia forests, Moremi has it all. Predators roam the diverse landscapes in between massive herds of elephants, buffalo, zebra, and antelope. It is a genuine wilderness where nature's timeless majesty unfolds before you.

Khwai Community Concession

On the northeastern outskirts of the Okavango Delta, Khwai offers an amazing ecosystem of lagoons, shallow flooded pans, open grasslands, and woodland forests. With over 1800km of unspoiled wilderness, it is without a doubt one of the most beautiful destinations for a safari. The wildlife is prolific, the scenery is enchanting, and the local Khwai community provides an inspirational example of harmony with nature. Khwai is a pristine nature preserve dedicated to ecotourism.

Mababe Depression

Botswana’s Mababe Depression is located in the southern reaches of the expansive Chobe National Park. Imagine 50,000 hectares (124,000 acres) of vast grasslands, marsh, and mopane woods fed by the ever-present Mababe River and the ever-shifting Okavango Delta. That is the fascinating and incredible Mababe Depression. Track huge herds of buffalo, follow migrating zebra, and witness lions, wild dogs, and cheetahs hunt in packs. Mababe offers a true adventure for safari-goers and an unforgettable spectacle.

Savuti (Savute) Channel

Savuti Channel is located in the world-famous Chobe National Park. It is a must-see wildlife destination with incredible natural beauty and 11,000 sq km of remote and untamed wilderness. Whether you’re tracking elephants or being enchanted by a pride of lions, Savuti is an oasis for all types of wildlife and vegetation. There are the beautiful rocky outcrops of the Gubatsa Hills, formed millions of years ago, desert-like landscapes, and open savannas known for high concentrations of predators.
