BRAVE AFRICA'S *Hands*

TOGETHER, WE GIVE BACK TO THE COMMUNITY AND MAKE A REAL IMPACT

Community

We empower communities by supporting less privileged and vulnerable families, participating in local projects, and ensuring our business is owned and operated by locals.

Education

We are committed to supporting schools and children by funding various educational necessities, from purchasing backpacks, uniforms, and school materials to meeting essential needs.

Conservation

Our goal is to instill a love for nature in our guests and protect the landscapes and ecosystems where we work by reducing plastic waste, utilizing solar power, and helping wildlife thrive.

Our Funding Efforts

We **donate USD $5 per night** from every safari guest directly toward our community and education efforts.

Guests can make **additional donations** to directly sponsor students and local community projects.

BRAVE AFRICA

GIVING BACK THROUGH EVERY SAFARI

Sponsoring School Children

We currently sponsor four children at the local school in Khwai Community Concession. We are dedicated to meeting their essential needs to improve school attendance and support their education.

Protecting Nature

We celebrate nature with our sustainable, comfortable mobile-tented safari camp. We have no permanent structures, use as little plastic as possible, and implement solar power wherever possible.

Hiring Locally

We are owned and operated by Motswanans, so our operating costs and salaries go back to the local community for greater impact. We also hire local artisans for many craft goods at our camp.

Conservation Economy

We use mostly community campsites, which means our camping fees go directly to the people who live in the Delta and are most impacted by our tourism, which helps to encourage continued conservation.
