MAXIMIZING YOUR TIME IN THE BUSH

You control the time on game drives!

"We did not come all the way to Africa to spend time at camp!" was the statement that inspired the creation of Brave Africa. Our philosophy is, the more time guests spend in the bush, the more opportunities nature has to delight them with something extraordinary. **Our guests ultimately set the pace of their safari**, but most guests choose all-day game drives where they leave camp at sunrise and remain out until sunset. Instead of only a few hours each day in the bush, our guests may enjoy 12-13 hours!
