### Etosha National Park Experiences

Etosha National Park is a 22 750 km<sup>2</sup> wildlife sanctuary in Namibia and the name means 'Place of Dry Water'.

This name refers to a flat calcrete pan of about 5000km<sup>2</sup>. The Pan provides an amazing, silver-white backdrop of shimmering images to an area of semi-arid savannah grassland and thorn trees. You will find water in the pan only after very good rains, and sometimes only a few days each year, but this is enough to let the blue-green algae grows which lures thousands of flamingos! There are close to 114 species of mammal in Etosha – this includes black-faced impala, the threatened black and white Rhino, Lion, Leopard, Elephants, Giraffe and many more!

Join us on one of our Game Drives and experience the wonder that the Etosha National Park has to offer...
