

◆ Activities

Naturalist cruise for wildlife observation guided by top naturalist guides. Our expeditions include two daily excursion (one in the morning and another one in the afternoon) and at least one opportunity to do snorkeling, paddle boarding or kayaking.

Embark on captivating guided walks, tracing well-trodden paths amidst otherworldly terrain. Observe the prehistoric Galapagos tortoises in their natural habitat and encounter rare species like the waved albatross and red-footed booby.

Walking

Plunge into the undersea wonders of the Galapagos. Snorkel among technicolor coral reefs, inquisitive sea lions, and schools of dazzling tropical fish. Witness the marine ballet of creatures like penguins and sea turtles in their aquatic playground.

Snorkeling

Kayak serenely through the Galapagos archipelago, navigating azure waters alongside volcanic landscapes. Marvel at the unique blend of aquatic and terrestrial life as you cruise past sea lions, marine iguanas, and iconic blue-footed boobies.

Kayaking

Embark on thrilling dinghy excursions, skimming the perimeter of dramatic cliffs and volcanic formations. Traverse tranquil mangroves, spy on nesting seabirds, and bask in the raw beauty of the islands' pristine and untouched shores.

Dinghy Ride
