

EXCURSIONS & SIGHTSEEING

In 2016, Zannier Hotels partnered with the N/a'an ku sê Foundation to create the Zannier Reserve, an immense nature reserve of 9,000 hectares dedicated to the preservation of vulnerable and endangered species and the protection of biodiversity. All our activities are realized within this reserve. Customized experiences can be organised on demand and upon availability.

Please note that all excursions within Zannier Reserve and N/a'an ku sê must respectively be confirmed at least 4 hours and 24 hours in advance to ensure availability. — CONSERVATION LEVY (OPTIONAL)

An optional conservation levy was implemented to support the vital and ongoing conservation work being done on the Zannier Reserve by Naankuse. Persecuted wild animals that caused human/wildlife conflicts to find a second chance on our reserve. Flagship species like white rhinoceroses, elephants, lions, African wild dogs, or cheetahs are continuously monitored and protected by dedicated teams of researchers and anti-poachers. Their research contributes to the understanding of territorial behaviour, carnivore hunting patterns, the risks associated therewith, ecology and so much more.

The conservation levy supports these costs and ensures the sustainability of the Zannier Reserve and ultimately ensures the survival of the species.

Thank you in advance for your support.
