Conservation Science Talks

An Exclusive Series Presented in Partnership
with SANParks Honorary Rangers

Join leading conservationists, scientists, and environmental experts for a fascinating journey into the natural wonders of South Africa. Discover and engage with the research and environmental success stories shaping South Africa's conservation landscape, and gain firsthand insight into the wildlife, ecology and biodiversity they work to protect.

FEATURED TALKS

CONSERVING THE MARINE ENVIRONMENT

Explore Marine Protected Areas, the role of sharks in ocean ecosystems, and how shark tagging supports conservation.

THE EXTRAORDINARY DIVERSITY OF CAPE PLANTS

Explore the unique flora of the Cape Floral Kingdom and the adaptations behind its biodiversity.

THE WONDERFUL LIFE OF INSECTS

Discover the Cape's remarkable invertebrates and their essential role in healthy ecosystems.

WETLAND, FRESHWATER AND FIRE ECOLOGY IN THE CAPE

Explore the interconnected role of fire, water and biodiversity in shaping Cape ecosystems.

SAVING GLOBALLY ICONIC SPECIES

Learn about African penguin conservation and efforts to protect this critically endangered species.

CONSERVATION IN A CHANGING WORLD

Gain insight into climate adaptation strategies helping South Africa's protected areas thrive.

MEDICINAL PLANTS AS A RESOURCE

Discover the value of indigenous medicinal plants and the conservation efforts protecting them.

OPTIONAL SPECIAL PRESENTATION: WILD DOG CONSERVATION

Learn about the conservation of one of Africa's most endangered predators and efforts to secure its future.

PRIVATE GROUP EXPERIENCE

R9 970/group (max 12 guests)

ADDITIONAL CONSERVATION CONTRIBUTION

R500 per guest

Every booking includes a conservation contribution that directly supports the projects undertaken by SANParks Honorary Rangers, helping to preserve Table Mountain's unique ecosystems for future generations.
