

The Santarena Hotel is a tropically elegant oasis inspired by a palette of people and places located between two of Costa Rica's loveliest Pacific beaches at the heart of Las Catalinas, a tropical car-free town on Guanacaste Coast that aims to continually inspire visitors and locals to connect with nature and other human beings.

In a formal sense, Santarena is an homage to the old mansions of the great coastal cities of Havana and Cartagena, a traditional gem where sun-kissed days revolve around blossoming courtyards, timeless terraces and picturesque archways surrounded by lush greenery with constant views of the sky. Stylish accommodations and inviting public spaces are seamlessly woven with gracious hospitality throughout.

Activities

Santarena offers a rooftop lounge, a 377-square-foot swimming pool, and proximity to Playa Danta, a local favorite for water activities. Nestled in 1000 acres of protected forest with extensive trails, it features a premier ocean-view mountain bike trail system (22 kms/14 miles). These sustainably built trails offer thrilling rides with no sustained grunting climbs, ideal for running and hiking.

Center of Joy boasts a wide variety of practices that foster well-being, improving how we eat, how and where we move, what we think, and the quality of our sleep. The facilities include a teaching kitchen and a state-of-the-art sound studio. The third floor offers over 1,500 square feet of open space for retreats, workshops, and trainings. Center of Joy helps you plug in and be present through yoga and exercise classes.

Our Concierge Team can arrange day trips by sea, land, or sky for those wanting to explore the country's interior and surrounding areas more extensively.

Dining & Imbibing

The hotel offers various dining options in picturesque settings, including room service and an all-day bakery for a quick bite. Breakfast and lunch can be enjoyed in The Atrium and Ponciana terrace areas, offering a casual indoor-outdoor space just off the lobby. The lobby bar provides light bites and beverages, from detox smoothies to cocktails. For dinner, Ponciana, the hotel's signature restaurant, provides a chic and sophisticated setting.

Calle la Ronda is an all-day bakery located on the premises, offering breakfast, lunch, and snacks. Indulge in a variety of sweet and savory baked goods, along with fresh bread, juices, coffee drinks, and teas.

Guest Rooms

The 45 guest rooms at Santarena are spread among four floors and offer an ideal place to rest, recover and recharge between active sunny days and social evenings. All accommodations feature king beds, sustainable wood floors and spacious bathrooms.

Traditional Rooms range from 344 to 430 square feet. There are also three Corner Suites (each 603 square feet) for those who wish to have more space and privacy with expanded views.

Meeting & Events

The hotel's inspiring and versatile range of facilities are fully equipped with the latest technology and an array of thoughtful amenities to seamlessly serve special gatherings ranging from professional or cultural groups and team building trips to sports and wellness retreats.
