SINDABEZI ISLAND

Livingstone, Zambia

LIVINGSTONE

"Magical stay. Sindabezi Island is heaven on Earth. From the Milky Way and twinkle stars at night to the breathtaking sunsets. I enjoyed every moment."

- Christina M, TripAdvisor Review

Sindabezi Island is situated on an island in the Zambesi River, just 12 kilometres upstream from Victoria Falls, and is a short boat ride away from Tongabezi Lodge.

Combining the charm of a classic bush holiday with the essence of island living, Sindabezi Island Lodge offers a rejuvenating escape that's pure "nature therapy" for the soul.

Take in the stunning vistas of the Zambezi River floodplain and Victoria Falls National Park from your open-fronted Chalet, where the only company is the local wildlife. Relax in serene corners and the main camp, inviting you to unwind in the peaceful charm of this small island retreat.

As one of Africa's Top 10 Eco Lodges according to Fodor's, Sindabezi operates entirely off the grid, meaning the only marks you'll leave behind are your footprints in the island's soft sand.

AT A GLANCE

LOCATION	Sindabezi is an intimate camp situated on an island in the Zambezi River, 12 km upstream from Victoria Falls in Zambia. It's a short 15-minute boat ride from its sister lodge, Tongabezi.

WHAT SETS US APART?

Established in 1992 as the smaller sister of Tongabezi, Sindabezi was created with enthusiastic collaboration from the local community. Guests can indulge in exceptional service from a dedicated, local team, knowing that every part of their experience contributes to the country, wildlife, community, and the future of this special place. Visitors are invited to explore and actively participate in Green Safaris' projects, including farming, reforestation, and education initiatives.

Sindabezi offers an exquisitely private retreat just a 30-minute drive from one of the Natural Wonders of the World. Despite the fact that Victoria Falls attracts around a million visitors each year, Sindabezi remains our best-kept secret and a cherished favourite among travel professionals.

Green Safaris operates in five very different locations around Zambia and Malawi. We carefully handpicked each spot for its pristine ecosystem, vulnerable wildlife, and isolated community, knowing that these were the places where we could make the most positive impact.

So, whilst Sindabezi focusses on taking care of travellers from around the world, our Green Safaris Conservation Foundation uses Sindabezi as the cornerstone for an ever-growing number of conservation, community, and environment initiatives on in the Simoonga and Livingstone areas.

All GSCF projects aim to ensure the greatest creation of jobs with the smallest carbon footprint, minimal environmental impact, and maximum social impact. During your visit to Sindabezi, be sure to ask our team about these projects! And if you like to travel with a purpose, do give us the opportunity to engage you directly with one of the below initiatives:

DOING GOOD

TONGABEZI TRUST SCHOOL

Tongabezi Trust School, also known as Tujatane—meaning “let us all hold hands together”—was established in 1996 with the generous support of contributors from around the world. The school relies entirely on donations, primarily from Tongabezi guests. Visitors are warmly invited to tour the school, interact with our 280 bright and talented students, and witness the impact of the free education and nutritious meals they receive. If you choose to do just one meaningful activity during your stay at Tongabezi, we highly recommend a visit to Tujatane.

TWAABANE CREATIVE CENTRE

The Twaabane Creative Centre, a project by the Tongabezi Trust School Team, is excited to showcase its vibrant and joyful space. Designed to impart creative, artisanal, and practical skills, the centre benefits both children and adults in our Simonga Community. Whether you're interested in learning sewing or sustainable farming, or if you have skills you'd like to share, we invite you to join a class or arrange a lesson in advance.

MKUNI COMMUNITY FARM

Come and explore our 12.6 hectares of sweetveld, which is evolving into a fully sustainable, community-run organic farm. Our team is eager to share their knowledge of sustainable farming techniques, including alley cropping, grazing rotation, and the use of homemade fertilisers and organic pesticides. You'll have the opportunity to compare these methods with traditional farming practices and see firsthand the benefits they offer. This innovative approach not only reduces costs and benefits the environment but also yields higher harvests. Located on your way to Victoria Falls, the Mukuni Community farm is a great addition to other town-based activities.

SIMONGA VILLAGE

The tours within Simonga Village provide a joyous opportunity for guests to learn, engage and share stories with our wonderful community. One of our local team will lead the tour, which is conducted in a respectful manner, and will introduce you to people who they know are happy to chat with the group. We encourage you to take the time to get to know the people you meet and to listen to the stories that they have to tell. This is an unforgettable way to experience a small slice of local Zambian life.
