Gorongosa Safaris

What we love

Set within the vast wilderness of Gorongosa National Park, Gorongosa Safaris offer a rare kind of safari experience, one rooted as much in restoration and purpose as it is in beauty and biodiversity.

RESTORATION SUCCESS

Gorongosa's restoration transformed a war-torn ecosystem into a thriving park, revitalizing biodiversity, empowering communities, and promoting sustainable conservation.

VAST UNTOUCHED WILDERNESS

4,000 km.sq / 1 million acres of wilderness with savannas, grasslands, wetlands, rivers, lakes, and montane rainforests on Mount Gorongosa.

BIO-DIVERSITY HOTSPOT

Gorongosa is recognized as one of the most biodiverse places on the planet, with its varied ecosystems and microclimates supporting exceptional endemism.

AN INTELLIGENT ADVENTURE

From conservation, science and community to walking, game viewing and exploring – with a combination between Muzimu Lodge and Chicari Camp.

Why stay 5 nights or more?

Exclusive Activities

Staying five nights or more at Gorongosa unlocks a deeper, more immersive experience of this remarkable park. Longer stays allow guests to access exclusive activities, offering rare insight into the conservation, science, and community work that make Gorongosa so extraordinary.

Stays of 5 nights or longer unlock the guided Pangolin Foraging Walk as well as the Behind the Scenes – Meet the Team, with the latter being at additional cost. Longer stays also allow time to enjoy special excursions like the Mount Gorongosa & Coffee Day Tour, which explores the mountain's ecology, community farming projects, and scenic Murombodzi Falls.

PANGOLIN FORAGING WALK

Included in stays of 5+ nights.

The Pangolin Foraging Walk offers a rare chance to join Gorongosa's Pangolin Guardians on a guided outing with rehabilitated pangolins.

Guests learn firsthand about the rescue, rehabilitation, and release of these highly trafficked mammals, gaining insight into the science, care, and community efforts that protect one of Africa's most vulnerable species.

BEHIND THE SCENES - MEET THE TEAM

Available for stays of 5+ nights at extra cost.

This activity invites you to engage directly with Gorongosa's rangers, scientists, and community leaders.

Hear their stories, ask questions, and gain a personal insight into the work protecting wildlife and supporting local communities, with all proceeds directly supporting the Gorongosa Restoration Project.
