LOCATION

The three exclusive-use houses of Morukuru Family are situated in a private concession in the southeast corner of Madikwe Game Reserve, located in the North West Province of South Africa. The reserve covers over 75.000 hectares, offering guests a premier safari and wildlife experience. The reserve is situated between the Botswana border and the area made famous by the South African writer Herman Charles Bosman, called the Groot Marico.

ACCESS BY AIR

Federal Air offers daily shuttle flights from O.R. Tambo International Airport to Madikwe Game Reserve. The duration of this flight is ± 50 minutes. Our guests are met on arrival at Johannesburg airport by a Morukuru representative and assisted through immigration, baggage collection and customs. They are then escorted to the Federal Air Kiosk (situated outside the Intercontinental Hotel) and from there shuttled by road to the Federal Air lounge. Guests are able to make use of the Federal Air lounge where light refreshments and snacks are offered whilst guests can stretch their legs and wait for the departure of their flight to Madikwe. Upon arrival at the Madikwe East airstrip, your Morukuru Family team will be waiting to take you through to your private villa. This transfer is a gamedrive already and takes ± 30 minutes.

Private charters and helicopter transfers can also be arranged upon request, we have a helicopter platform on our private property.

ACCESS BY ROAD

Madikwe Game Reserve is located 360 kms from Johannesburg and is about a 4-hour drive, mostly on tar roads, with Sun City being located more or less halfway. Transfer services can be arranged and include a personalised meet and greet service at O.R. Tambo International Airport or hotel and the services of an English speaking driver.

CHECK-IN & CHECK-OUT

Due to the specific nature of our exclusive use houses we have to be strict about the check-in time (from 14:00 hrs) and check-out time (latest 11:00 hrs). We don't have a communal space (restaurant) like 'normal' lodges, therefor we can't accommodate guests that arrive early or depart late, unless an additional night is booked.

WILDLIFE

The malaria-free Madikwe is one of South Africa's largest Big 5 game reserves. Its extensive grass plains are home to not just the Big 5, but also the African Wild Dog, Cheetah and a large selection of plains game, as well as over 340 species of birds. The rich diversity of vegetation ensures a wide range of game and wildlife as well as a terrain and topography, that offer ideal game viewing and photographic opportunities.

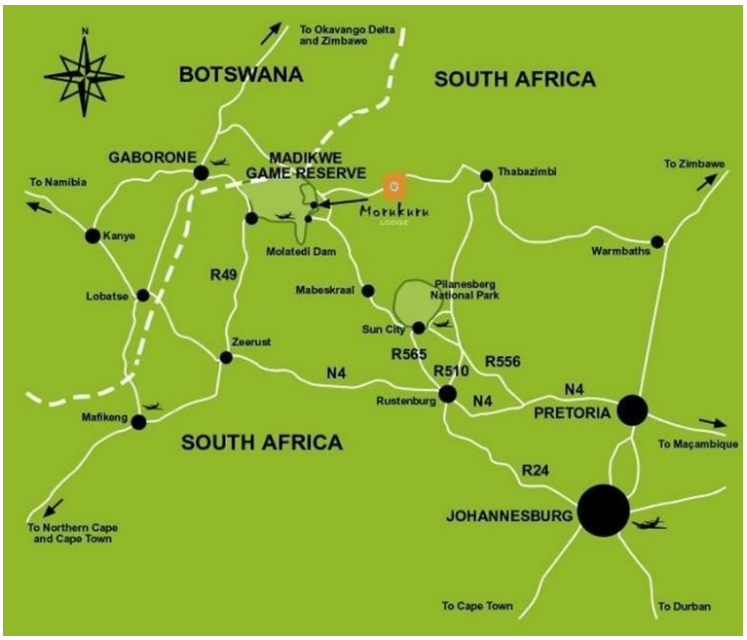

CLIMATE

The climate is typified by hot summers (September to April) and cool dry Winters (May to August).
Summer temperatures: 25˚C(77˚F) – 40˚C(104˚F)
Winter temperatures: 3˚C(38˚F) – 23˚C(73˚F)

Rainfall
Classed as a semi arid region, rainfall amounts to about 500 mm (19.5 inches) per year, with most of the rain falling during the summer months.

Children receive a Morukuru Kidz Backpack filled with Safari treasures. Children are kept busy with baking, kiddie-adventures, swimming, fishing and much more. We offer babysitting service as well.

SOLAR POWERED – FULLY OFF THE GRID

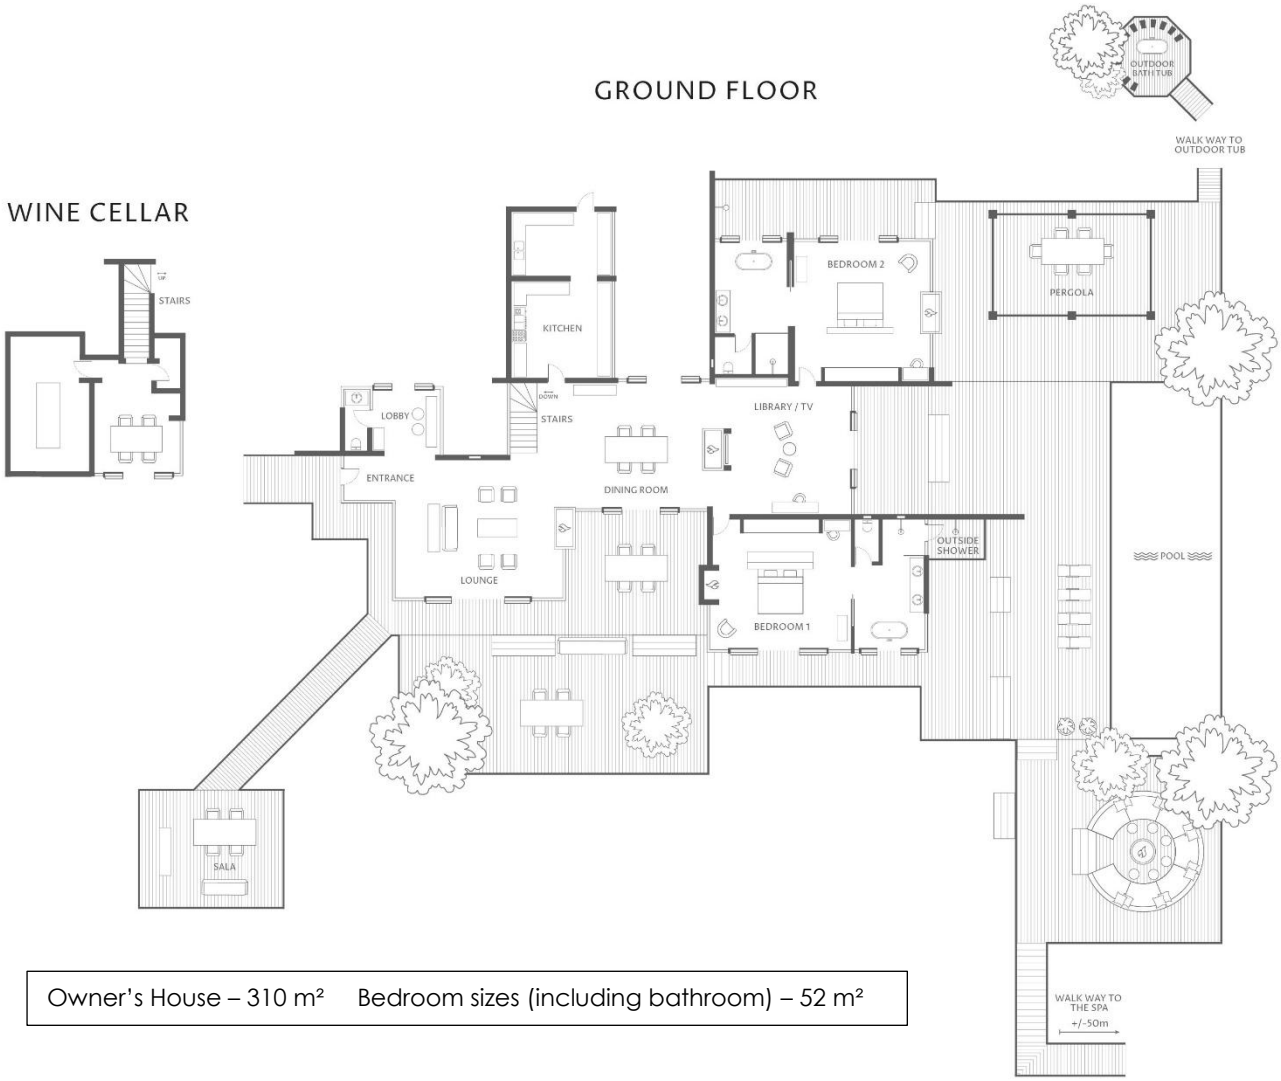

Electricity at all 3 houses in Madikwe is generated by solar panels, with a back-up generator just in case. We are not relying on the national grid for power.

MORUKURU GOODWILL FOUNDATION

Morukuru Family strongly believes in giving back to Africa and to its wildlife, in the form of preservation and conservation, and to the local communities through education, empowerment and encouragement.
We are involved in various Wildlife and Community projects: removing alien vegetation from Madikwe Game reserve, assisting the Molatedi school library with book donations as well as soccer kits for the up and coming soccer stars, recycling initiatives, and assistance with Parks Board projects like darting, collaring and relocation activities. Our guests can become a part of this as well, by voluntarily donating goods or funds towards any of the projects. It is also possible for guests to be involved in some of the nature conservation projects. Please enquire and we gladly advise options and possibilities.
