DAY 1 - ARRIVAL DAY

Fly into Livingstone Airport (HMIA / LVI)

Once you have cleared Immigration and collected your luggage, you will be met by a member of our team and transferred to Chundukwa River Lodge, 25mins by road.

A very warm welcome to Chundukwa River Lodge!

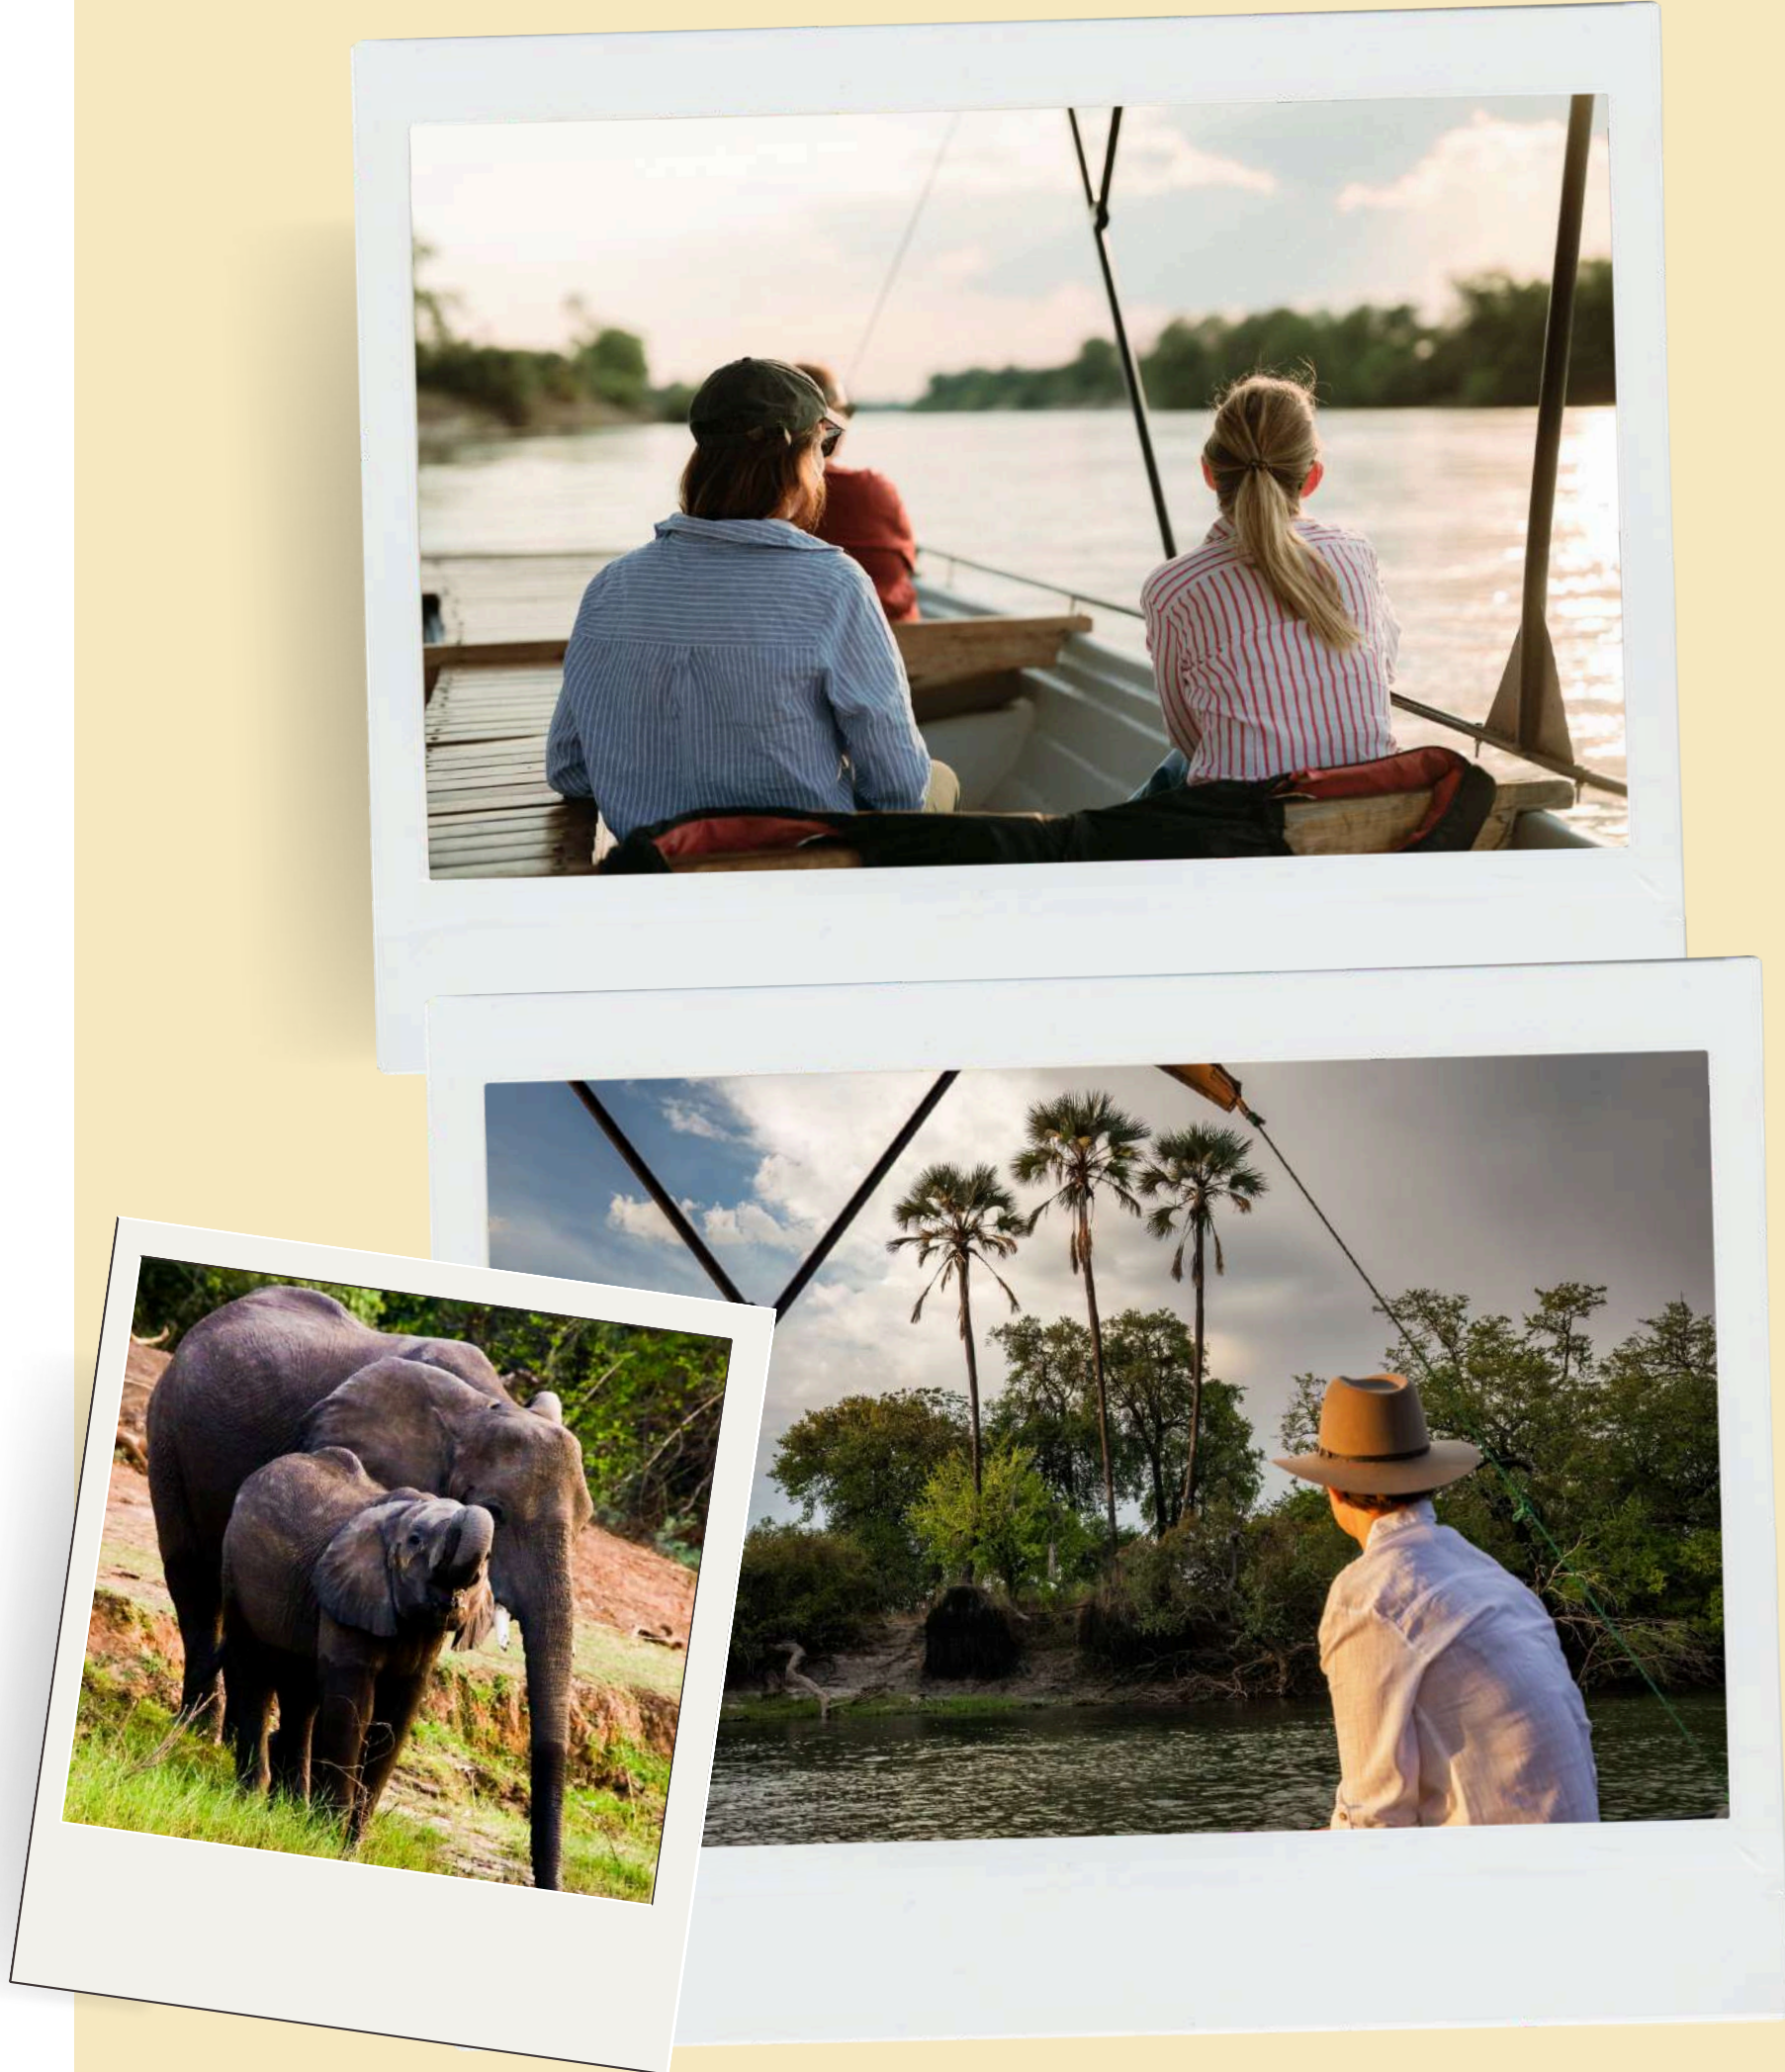

*Chundukwa River Lodge is a luxury
eco-lodge & equestrian ranch!
Escape into nature here.*

Stay in one of five stunning Riverside Chalets or Chundu Cottage, a private house with pool.

After check-in and a light lunch on the patio overlooking the river, you will hop onboard our lodge boat and embark on Zambezi Sunset Cruise. This is a superb way to relax and enjoy the spectacular beauty of the Zambezi River.

There are great photo opportunities against often-spectacular African sunsets. Flocks of birds skim the waterline as the sun sets behind the African skyline. Guests may have the opportunity to see a variety of game; including hippo, crocodile, elephant and many bird species.

The Zambezi Sunset Cruise is inclusive in your stay and includes a wonderful selection of drinks and snacks.

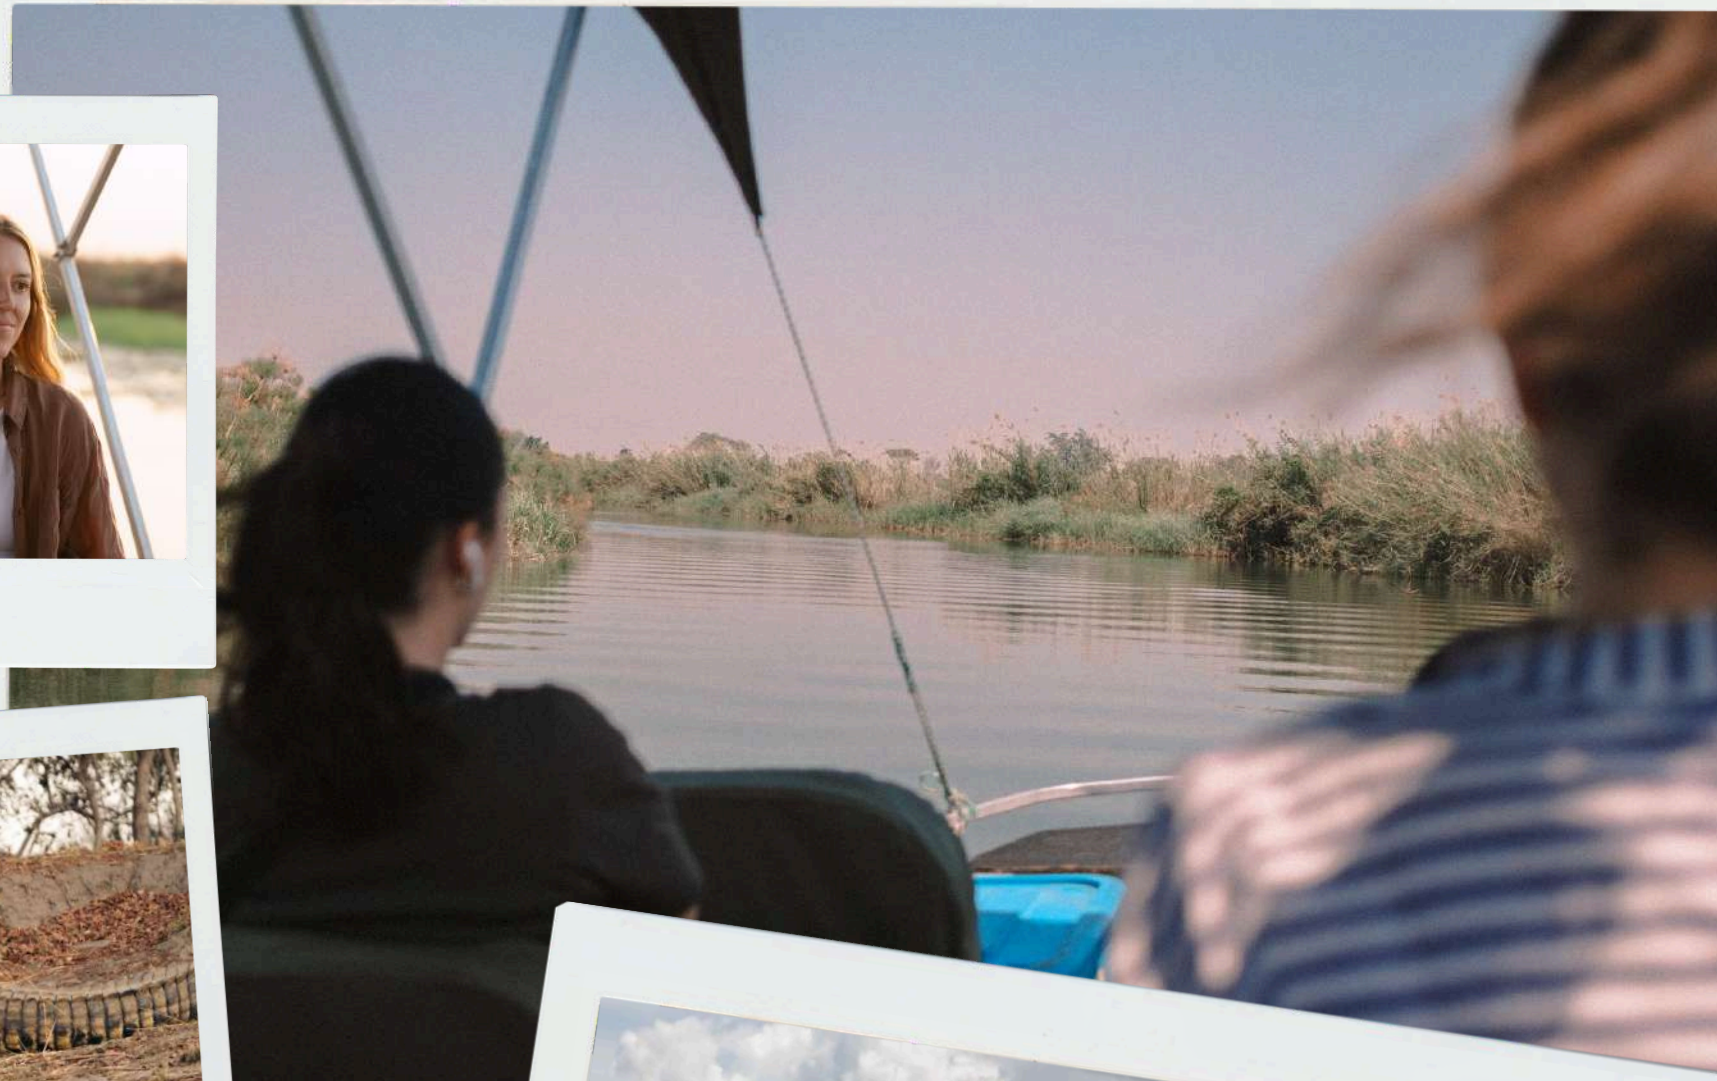

DAY 2 : WAKE UP WITH THE SUN

Our journey to the horse safari camp...

Our journey starts with a 40 minute road transfer to a small African harbour called Mambova. Local villagers and fishermen trade their daily catch here and it is a kaleidoscope of colour, noise, children, goats and chickens! By this stage you are firmly off the tourist circuit and will be in a beautiful, remote part of Africa!

We continue our journey by River!

This magical boat journey takes you upstream on Africa's fourth largest river – the mighty Zambezi. You can expect to see hippos, crocodiles, local fisherman in their traditional dugouts called *mokoros*, local cattle grazing on the river banks and remote village scenes.

Make sure you have your riding gear onboard as we shall be jumping straight onto a horse when we get there. Also bring a warm jacket just incase it is cold. Our boat for the river transfer is an 8-seater Alli-Boat with a canopy for shade. There are refreshments on board!

After two hours on the river, look out for the horses, saddled and waiting on the riverbank. **It's time to ride!**

Doug is in charge of horsing riders. This afternoon, as we ride to camp, Doug will ascertain the best horses for your experience with us. Your luggage will follow us to camp!

Our Herd

We have Quarter Horses, Quarter Horse cross Boerperds, Basotho Horses and Thoroughbred-Crosses in our herd. There are approximately 24 horses in camp during the season that run wild, returning mornings and evenings for food, grooming and vet checks.

DAYS 3, 4 & 5

We start each day before dawn at Zambian Horseback Safaris, with your choice of tea or coffee and a light breakfast before setting off in search of wildlife and adventure!

We will spend the morning exploring the Simalaha Wilderness on horseback, an area of epic significance – 180,000 km² of raw wilderness – *a place to immerse oneself* in the vast plains, gently approaching and appreciating huge herds of wildlife, mopane forests, giant and ancient baobab trees, the lifegiving Zambezi River and the people that call this land home – Lozi people who go about their day-to-day lives between the riverbanks and their homesteads, moving their cattle along the Riverbeds and fishing for their families on the river.

*For riders, being able to canter into the horizon on land without predators and without holes is an absolute joy. We encourage riders to enjoy the space and to experience the **pure riding freedom** of the Simalaha.*

Here, time seems to stretch and slow down.

It's an opportunity to disconnect from responsibilities and routines and to connect with nature.

Witnessing the sunrise
each morning on
horseback. Pure magic!

*The Simalaha is where wildlife and people come together
and co-exist under one sky as they once did.*

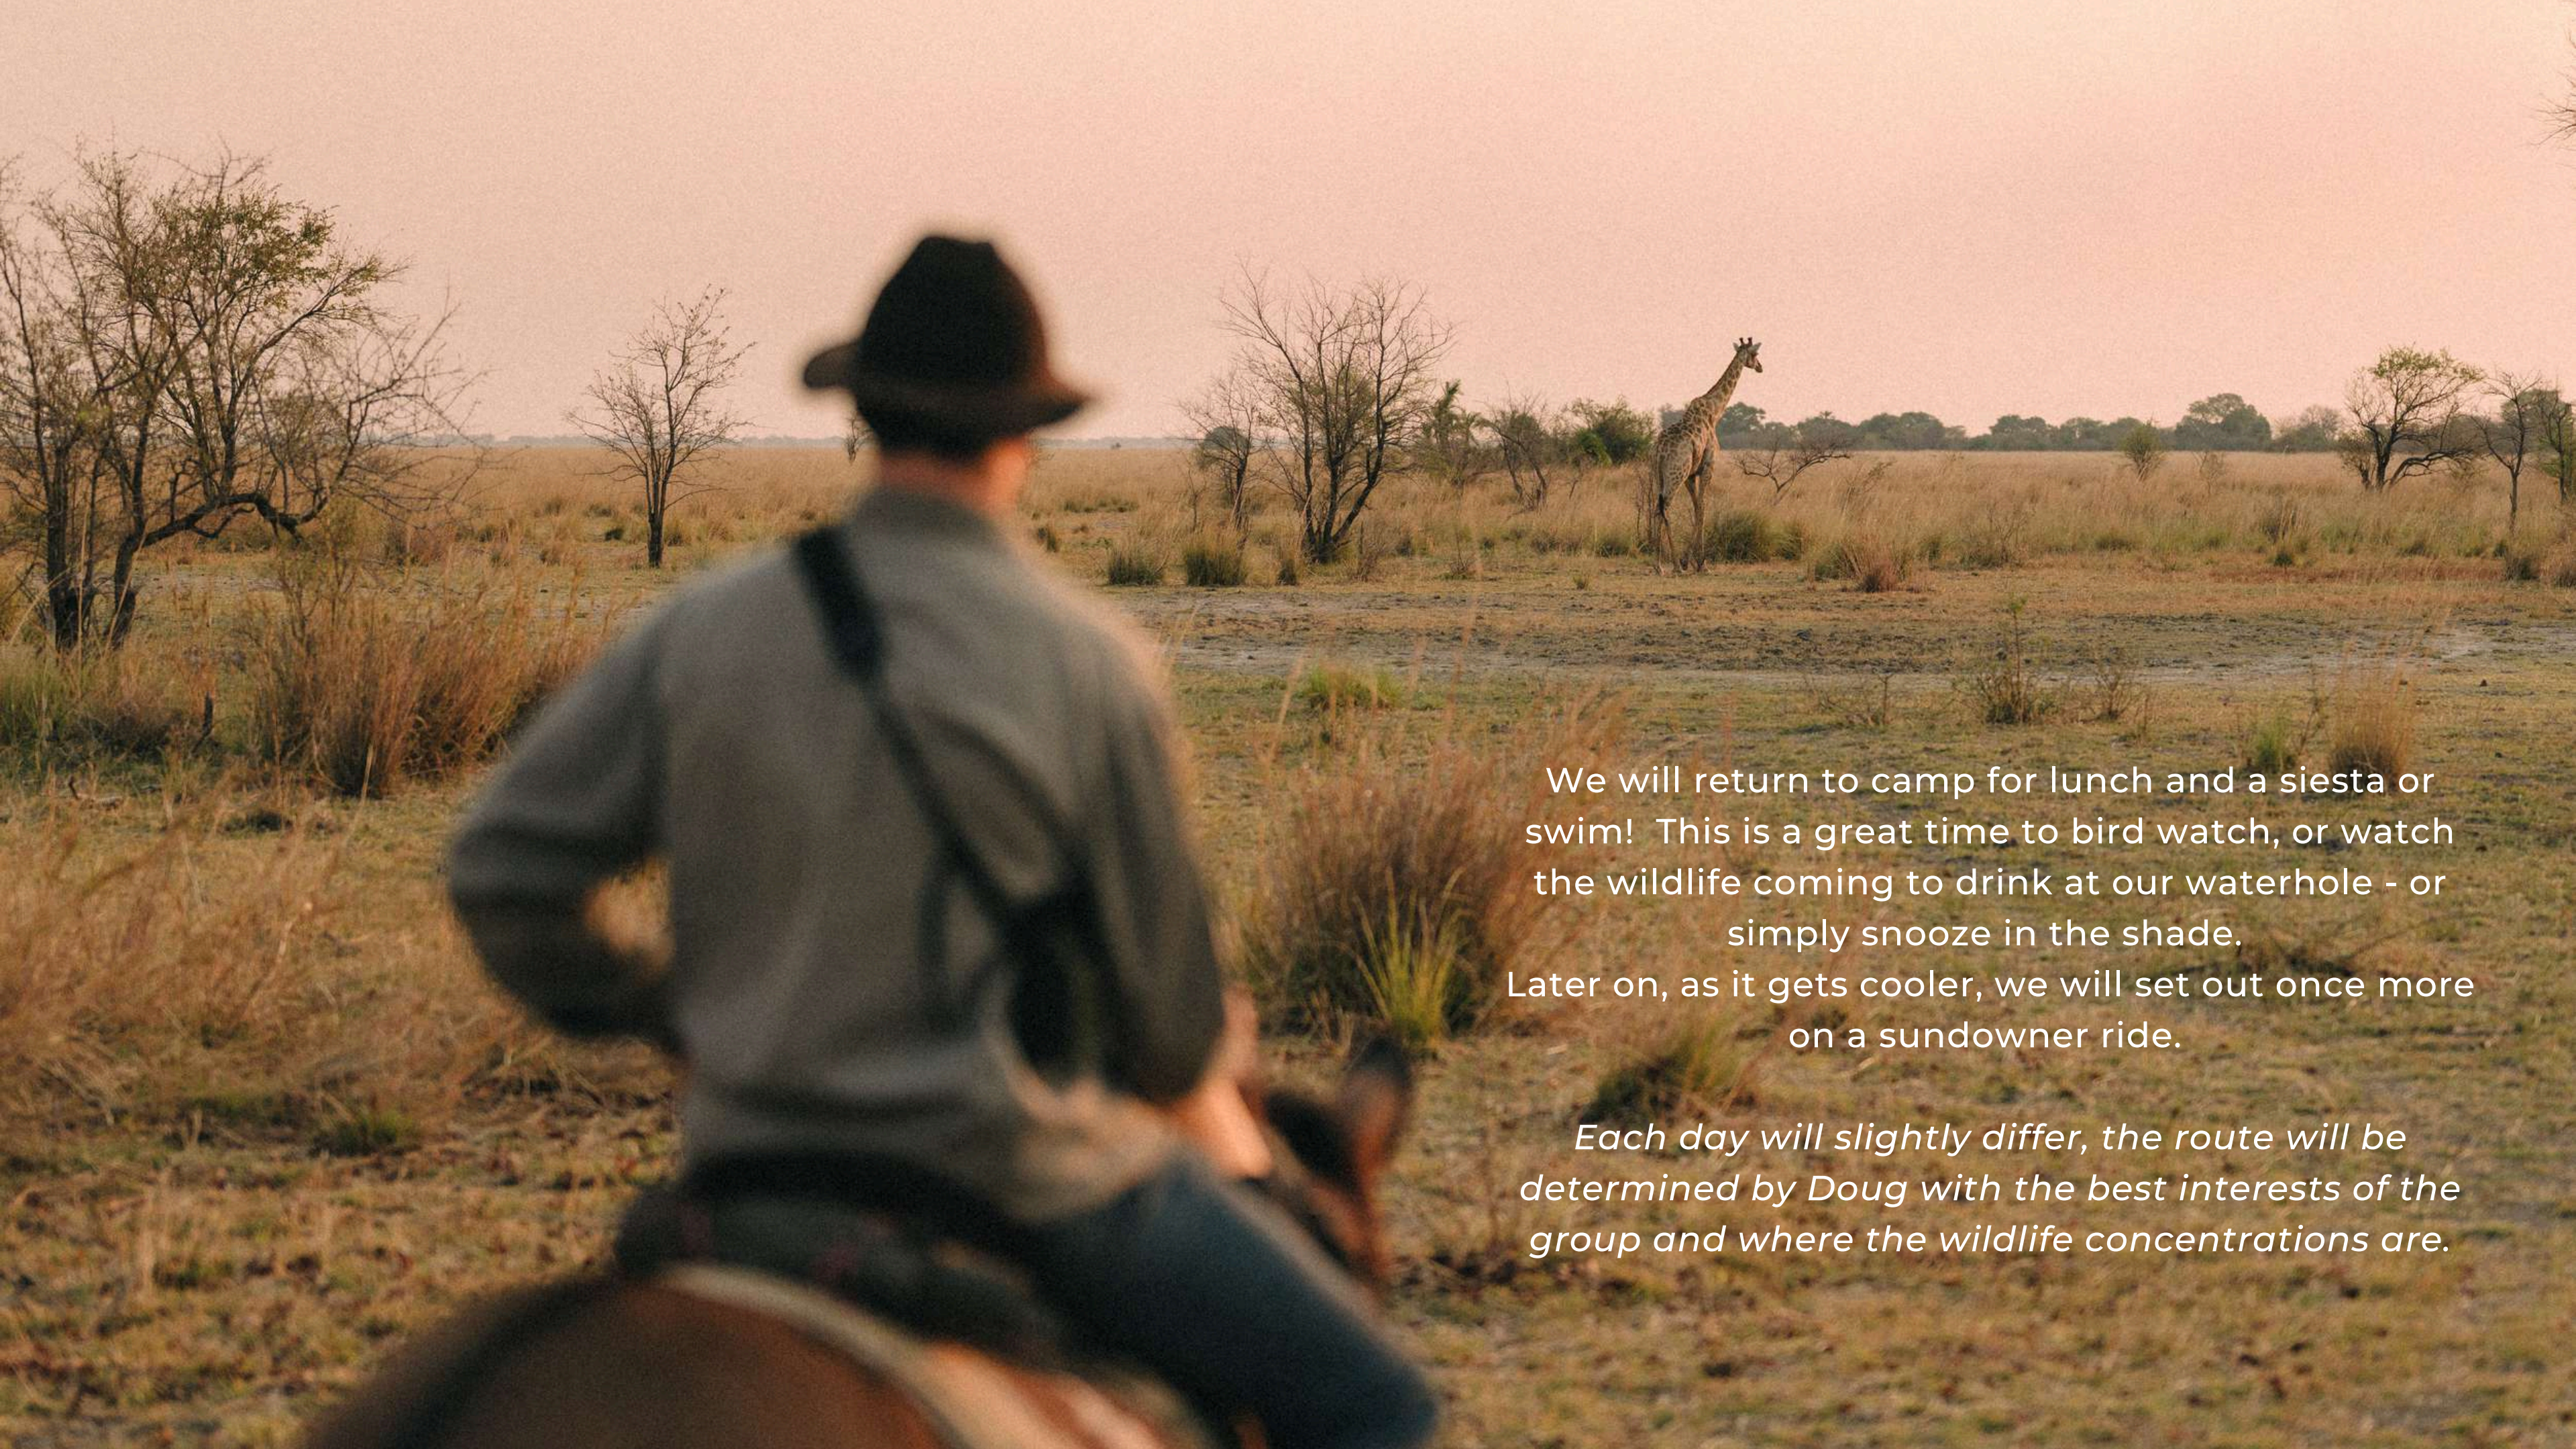

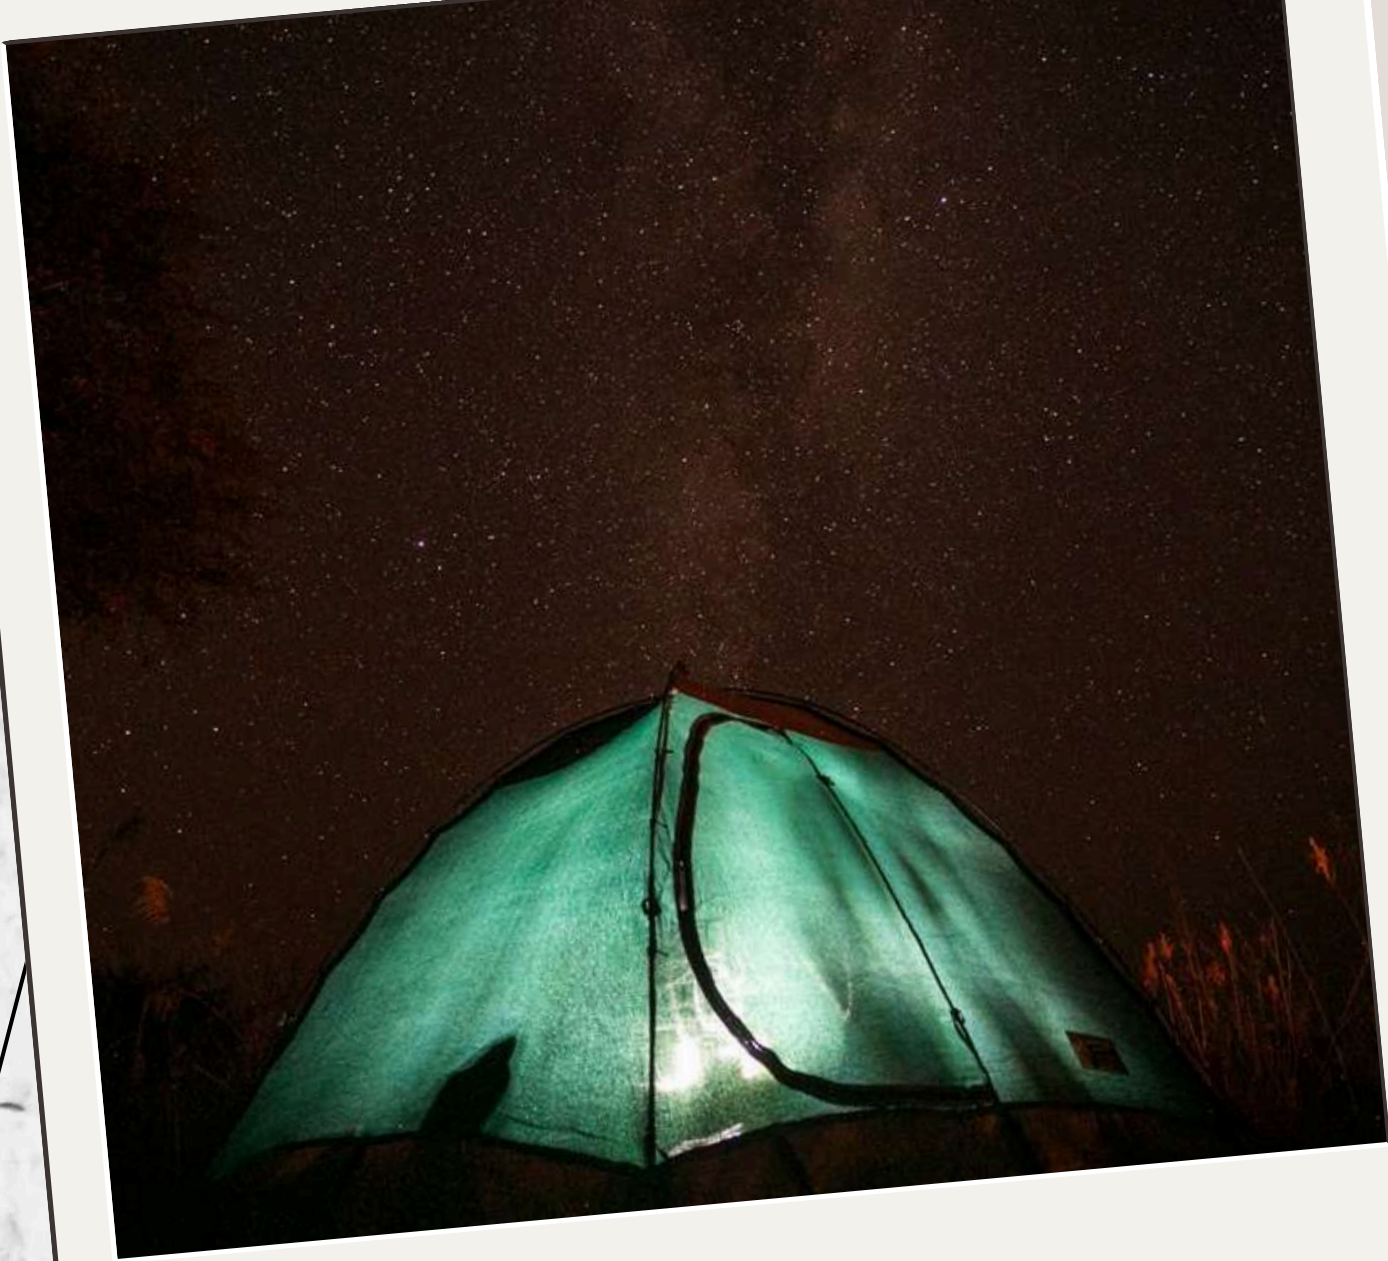

*"It's like stepping into a time
machine and going back to the
raw roots of Africa"*

We will return to camp for lunch and a siesta or swim! This is a great time to bird watch, or watch the wildlife coming to drink at our waterhole - or simply snooze in the shade.
Later on, as it gets cooler, we will set out once more on a sundowner ride.

Each day will slightly differ, the route will be determined by Doug with the best interests of the group and where the wildlife concentrations are.

For one night, riders can opt to experience a STAR BED experience in the heart of the Simalaha Wildlife Conservancy!

Riders can spend the night in a specially designed Stargazer Tent, allowing you to sleep under the night sky while staying completely sealed, safe and comfortable. Gaze up at the breathtaking Southern skies – home to the dazzling Milky Way, the Southern Cross, and even distant dwarf galaxies – all from the comfort of your tent.

Please note there is an additional fee should you wish to do this!

A scenic view of a riverbank with elephants and trees, seen through the blurred heads of people in a boat. The scene is captured from a low angle, looking out from a boat. In the foreground, the dark, out-of-focus heads of several people are visible, framing the view. The middle ground shows a grassy bank with several elephants. One large elephant is prominent in the center, with a smaller calf nearby. To the right, another adult elephant and a calf are visible. The background is filled with lush green trees and a clear sky. The water in the foreground is calm, reflecting the light.

day 6

This morning, enjoy a final opportunity to canter across the plains, and enjoy the sunrise and wildlife before our return journey to Livingstone. We will depart by river and road back to Chundukwa River Lodge.

An aerial photograph of the Victoria Falls in Zambia. The image shows the wide expanse of the falls, with water cascading over a rocky edge into a deep gorge. Thick white mist rises from the falls, partially obscuring the water. The surrounding landscape is lush green, with dense vegetation on the banks. A road and the Victoria Falls Bridge are visible in the lower left, crossing the gorge. The river continues upstream, winding through a series of small islands and peninsulas. The overall scene is majestic and scenic.
