

CAMP DIFFERENCES - MOBILE WALKING SAFARIS

Each of our Karisia walking safari itineraries can be booked as one of two options: “Classic walking safari with camels” or “Air BnC walking safari with camels”. These walking safaris are all mobile walking safaris where the camp is moved each day to a new location by our camels and team. Each camel train consists of 10-25 camels to carry the camp and between 8 and 16 staff. The heavier the camp - the more camels and staff are needed to move the camp each day. Having camels carry the camp means that we can get away from vehicles and into more remote areas with a smaller footprint. If you wish to base yourself in one place and do walks each day, then enquire about Tumaren Camp and the Satellite Camp. These can be enjoyed alone or as a start and end point for a mobile safari.

CLASSIC WALKING SAFARI - WITH CAMELS

The Classic walking safari with camels offers everything you might dream of and more. The four poster bed is left behind, but the king size mattress, feather pillows and duvet are not. Your accommodation is in a large, traditional, canvas tent with chairs, tables, carpets, solar lights, a mirror, drinking water and a hand wash basin on the veranda. The bedding includes 2 pillows, sheets and duvets and towels. The luxurious extras include dressing gowns and hot water bottles, travel shampoo and soaps and on request we can provide camp cots. If you want a family style tent, we can join two tents together so that small children feel secure. The bucket shower comes with plenty of hot water and is available on request. There is a comfortable and private toilet behind each tent.

Meals are freshly prepared each day with breakfast and dinner served at the table and lunch is an informal buffet-style. A wide choice of beer, wine and spirits are also included and we can cater to any dietary wishes.

AIRBNC WALKING SAFARI - WITH CAMELS

Our Air Bed and Camel safari is perfect for travellers for whom the experience is more important than luxuries. Traveling a little lighter means the camp moves a little quicker and still guests needs are all catered for. The tents are spacious 4 man dome tents with two doors and a top that can easily be taken off at night to enjoy star gazing. We provide comfortable bedding that includes a pillow, sheets, blankets and towels. A table, chair and hand basin are at the front of the tent and solar lights light up the tents. Toilets are shared with the group - if there are 6 guests there are 2 toilets. Hot and cold bucket showers are available on request with body wash in the shower cubicle. We serve excellent two course meals with house drinks included and always enjoy a buffet lunch and a sit down diner. The lighter camp means less staff and camels are used to move it.

SATELLITE CAMP - NON MOBILE CAMP

The camp is a non mobile tented camp that is exclusive to your group and remains in one remote place. This camp has all the luxuries of the Classic camp and more with a larger dining and mess tent furnished with couches and a bar. Your accommodation is in a large, traditional, canvas tent with chairs, tables, carpets, solar lights, a mirror, drinking water and a hand wash basin on the veranda. The bedding includes 2 pillows, sheets and duvets and towels. The luxurious extras include dressing gowns and hot water bottles, travel shampoo and soaps and on request we can provide camp cots. If you want a family style tent, we can join two tents together so that small children feel secure. The bucket shower comes with plenty of hot water and is available on request. There is a comfortable and private toilet behind each tent.

Meals are freshly prepared each day with breakfast and dinner served at the table and lunch is an informal buffet-style. A wide choice of beer, wine and spirits are also included and we can cater to any dietary wishes.

TUMAREN TENTED CAMP - NON MOBILE CAMP

This option is good for those wanting the walking experience from a permanent camp. The camp can be taken on an exclusive basis or with mixed groups. Each safari group has their own guide. Tumaren Camp combines well with the Karisia Mobile Safaris.

This spacious tented camp was originally the home of Kerry and James (owners of Karisia Walking Safaris) and it has 7 sleeping tents with en-suite bathrooms with flush toilets and running water. Four of the tents have a partition affording a bit more privacy if guests want to be together but not in an open plan tent. Each tent can fit a family of 4/5 if needed or else kept as a double/twin. There are 2 dining room tents should guests want to eat alone. There is a 20 metre swimming pool with an airy pool house and bar is a nice place for lunches. Guests staying here enjoy walks, camel rides, picnics, rock climbing, beading, market visits, school visits and game drives from the camp and come back to the camp each day. There is a waterhole in front of Tumaren that attracts a lot of wildlife. Full board accommodation with alcohol included.
