Complimentary return airport transfers from/to Kasane Airport	Complimentary return airport transfers from/to Kasane Airport
Due to the size of the vessel, sailing is weather dependent. During periods of stronger winds, the Zambezi Queen may remain at anchor while activities continue by tender boat to ensure guest safety.	The smaller size of the Chobe Princess allows for greater flexibility when repositioning along the river, providing access to a wider variety of mooring locations and ever-changing safari scenery (weather and river conditions permitting).
