With a fascinating combination of indigenous history, culture and wilderness that is found nowhere else in Africa. Walk in the footsteps of giants, including the military genius, Shaka Zulu; and legendary conservationist, Dr Ian Player.

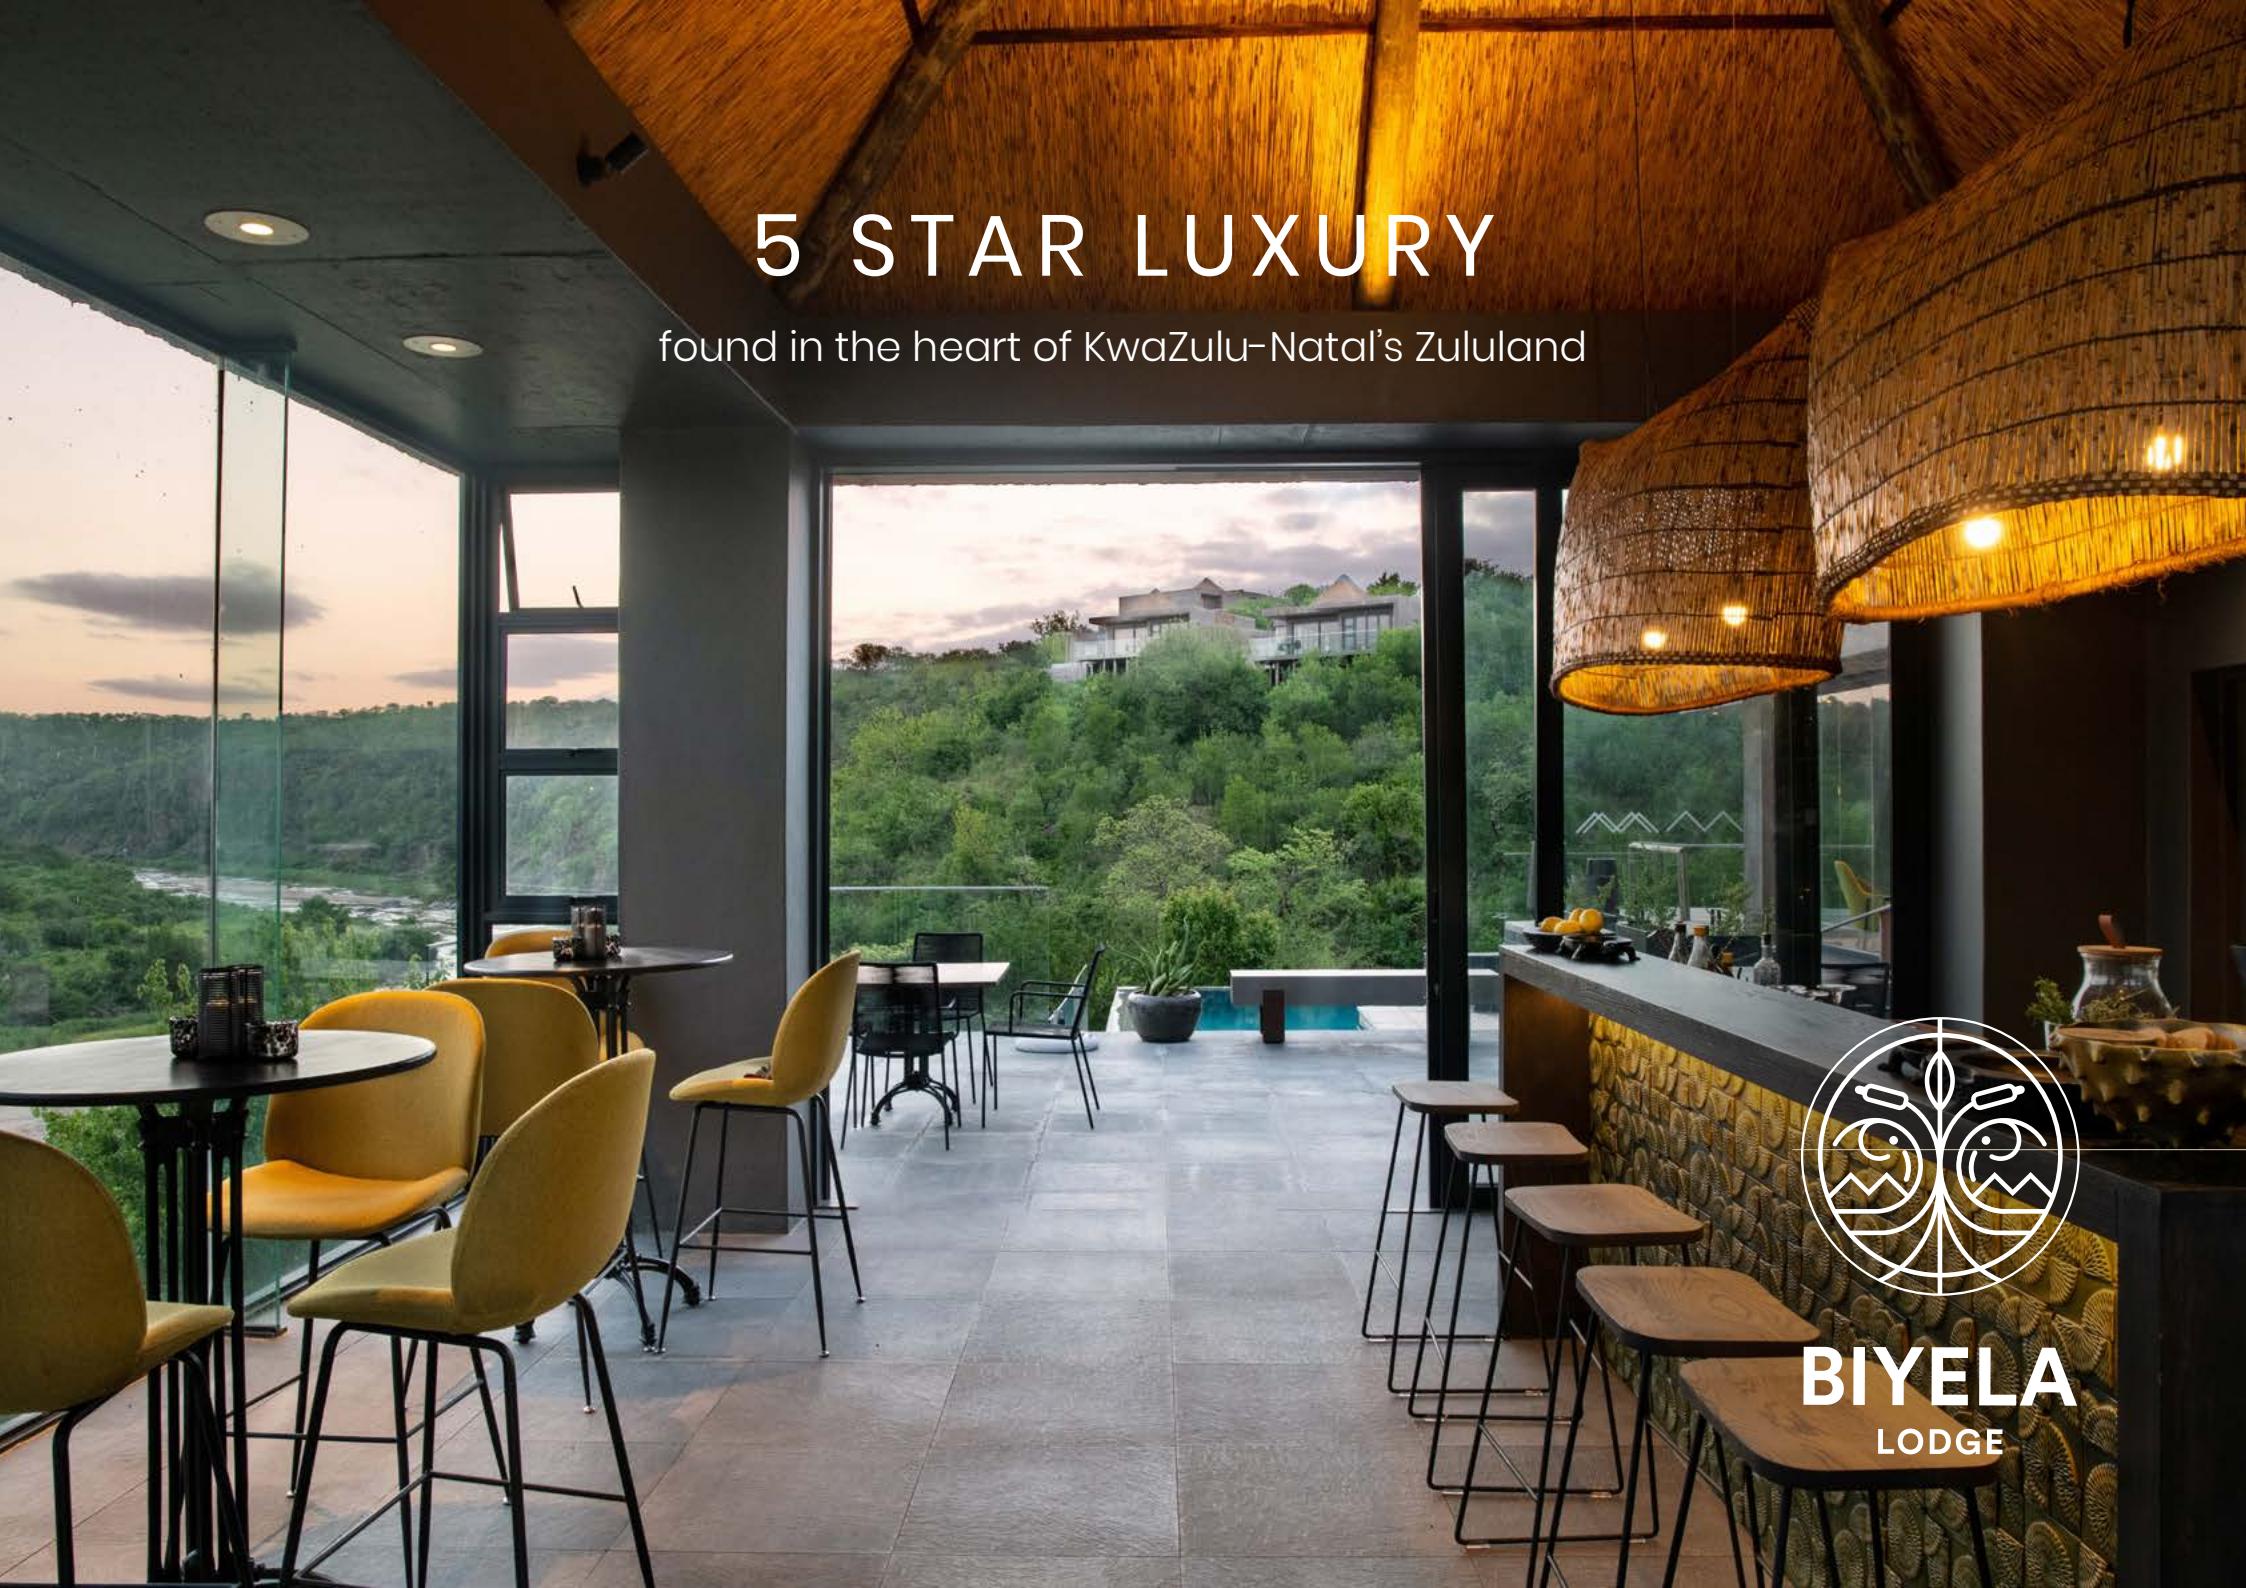

mFulaWozi Wilderness and surrounds are home to diverse plant, animal and bird species, including the impressive Big 5. Welcome to this authentic African wildlife experience rooted in purpose.

Have we forgotten that wilderness is not a place but a pattern of soul where every tree, every bird and beast is a soul maker. - Dr Ian McCallum
