■ NOTES		
<p>Nambwa Campsite offers 4 exclusive sites nestled under either a majestic Jackleberry, Strangler Fig, Leadwood or Knobthorn tree right behind the Kwando Rivers' Long Lagoon.</p> <p>Each campsite has an expansive view of the vast floodplains beyond with an abundance of animals roaming these plains. 2 of the 4 campsites are more secluded and are located closer to the floodplains. Campsite 3 and 4 would be perfect for larger families or groups travelling together.</p> <p>As Nambwa Campsite is in the heart of KAZA, the World's Largest Wildlife Conservation Area, it is without a doubt, wild camping in its truest form, with local and migrant wildlife wandering through the campsites.</p> <p>The campsites boast tasteful art mosaic pieces and chandeliers which have been skillfully crafted by the team at The Sijwa Project. The structures have been built or enhanced using accents of recycled materials paying tribute to all that African Monarch Lodges inspires through its Sijwa Project.</p> <p>All campsites are equipped with the following:</p> <ul style="list-style-type: none"> • Large camping areas with ample shade. • Kitchen with a Lapa offering extra shade or serves as a rain cover during our wetter months. • Double wash basins with hot water. • Bathroom with double basin, vanity, shower, toilet, hot water fueled through a donkey boiler using 100% recycled carton fire bricks made at The Sijwa Project; • Swimming Pool • Individual Solar Powered lights, a plug point for one car fridge and 2 USB charge points. • Fire pit with a grid and concrete benches surrounded by soft white sand which you can sink your feet into around the fire. There is ample space to add camping chairs around the fire. • WiFi connectivity
