THE ENTERTAINING SPACES

At the heart of Sala is a series of interconnected spaces where events unfold with ease.

The dining room, ocean deck, courtyard, and lounge areas are seamlessly linked, allowing each moment to transition naturally into the next.

Guests may arrive to drinks in the courtyard, centred around the main bar and sheltered from the coastal breeze.

As the evening unfolds, the experience moves towards the ocean deck for sunset, before returning to the dining room and surrounding spaces for a more intimate, relaxed atmosphere.

Flowing between indoors and out, this central entertaining area offers a variety of moods, from open and ocean-facing to more intimate and protected.

Gardens & Terraces extend beyond the main entertaining area, providing additional space for arrival drinks or a natural continuation of the event.

THE VILLA

Set slightly apart from the main house, the Villa offers a more private and self-contained space for intimate gatherings, celebrations, or meetings.

Designed with the same calm, residential aesthetic, it provides flexibility for smaller-scale events or as an extension of a full property experience.
