

SELINDA EXPLORERS CAMP

SELINDA RESERVE | NORTHERN BOTSWANA

GREAT PLAINS

CONSERVING AND EXPANDING NATURAL HABITATS

Selinda Explorers Camp is located in the private Selinda Reserve of northern Botswana. It is built on the banks of the Selinda Spillway, about one hour west of its sister camp, Selinda Camp.

This Explorer-Collection safari camp transports guests back to the time of bygone safaris but with a modern twist and hospitality. The camp's focal point is the Bedouin-style main area, offering a lounge and separate dining room. The four guest tents provide comfort and style but with a magnificently raw spirit. Subtly placed under the shade of the riverine forest, the camp is designed in the style of the early explorers, both in philosophy and practice. Explore the area on an open vehicle safari drives and guided walks and relax in the afternoons under the canopy of African ebony and Mopane tree under the canopy of African ebony and Mopane tree in afternoons. When the Selinda Spillway does flood, which now occurs irregularly in winter, guests could have the opportunity to drift along its quiet waters by canoe.

Selinda Explorers Camp on classic East African safari traditions with beautifully detailed campaign-style furniture made from recycled hardwood and soft furnishings from Zanzibar and the East. This is an unassuming camp, light on its footprint but heavy on its experiential luxury. The atmosphere of the camp is one of bush elegance with a relaxed style, complemented by attentive staff, private, professional service and fabulous food.

This is an ideal African safari camp for those guests who want to experience Botswana's extraordinary wildlife but in the most private setting. It is perfect for individual travellers, couples, families and small groups.

The camp sits in a prime predator habitat, in a location which we handpicked based on exploring this area for years. Lions, leopards, and cheetahs are regularly seen. The opportunity to see wild dogs is also possible when they periodically hunt these parts. Good densities of giraffes, buffalo (in the dry season), and all the antelope - even including roan, sable, and recently spotted eland - are possible sightings.

At the peak of the dry season in late September, the Selinda Reserve has been documented to hold up to 9,000 elephants. There is phenomenal bird life along the Spillway's banks for those looking for some 'lifers'.

ACTIVITIES

Wildlife Viewing

Selinda Explorers Camp focuses primarily on traditional safari activities, such as guided walking adventures with licensed, armed guides. There is simply no better way to experience the magic of this unique destination.

These walks are ideally combined with wildlife-viewing activities such as heading out in your open safari vehicle.

Early morning, late afternoon/ evening, or even full-day safari drives are done in our custom-built, open Toyota Land Cruisers, specially designed for our conditions and photography. These vehicles include fold-down windscreens, raised roofs, photographic bars, and multi-plug inverters. Each Land Cruiser has reference books, drinks, and snacks. While our wildlife viewing focus remains on the most comfortable times of day (early to mid-morning and late afternoon to evening), spending a whole day out in the wilderness is not uncommon.

Our safaris will often continue into the evening in search of nocturnal species. Night drives are incredibly prolific, and while they take patience, sightings commonly include lesser-known nocturnal mammals and even lion and hyena hunts.

Canoeing along the Selinda Spillway may be possible if the Selinda Spillway floods in the winter.

Great Plains Conservation

FOUNDATION INITIATIVE

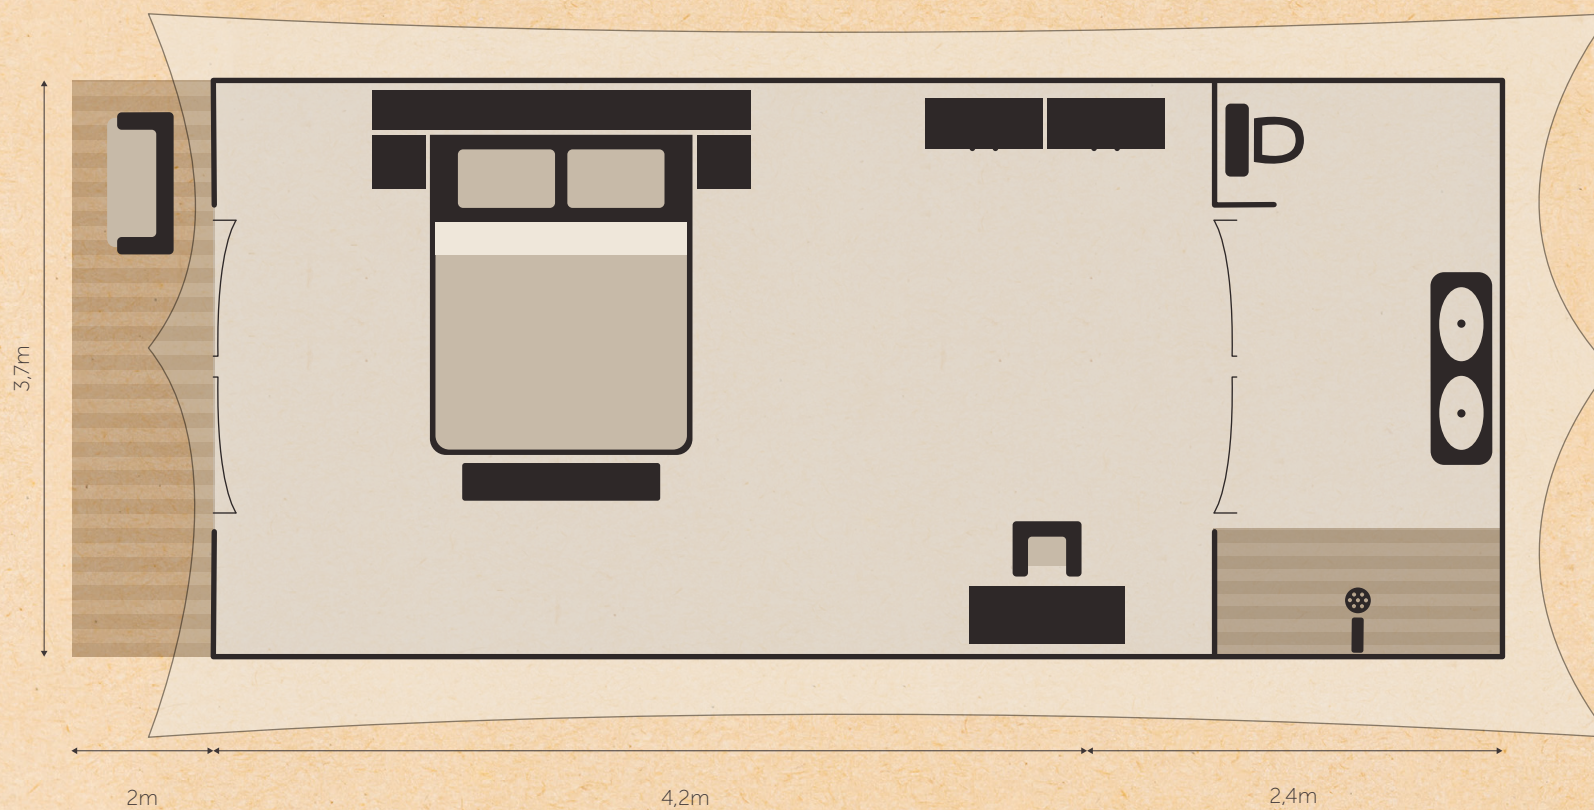

Conservation Education

Engaging youth in local communities living alongside conserved land is critical to long-term conservation. Our conservation education programs engage youth with the natural world at a pivotal time in their lives. Great Plains Conservation believes that through thoughtful engagement, environmental education, fun and mentorship, youth in nearby communities can learn to appreciate the uniqueness of their ecosystems and become champions for conservation. Great Plains Student Conservation Camps are one of our longest-running community programs. Since the program began more than ten years ago, hundreds of children have benefitted from the program in both Kenya and Botswana. For years the annual residential "kids camps" in Botswana were held at Selinda Explorers Camp! Learn more at www.greatplainsfoundation.com

In addition to our own programs Great Plains Foundation keeps a list of school needs in the countries where we work. Needed items can be hand-carried by travelers or we can help purchase them locally. To learn more or to help support students and educators as part of your trip please reach out info@greatplainsfoundation.com
