CLASSIC JOURNEYS

WHISPERS OF THE WILD RESTORATIVE BODY RITUAL

120 MIN | \$ 275

Hydrating – Grounding – Quietly Transformative

A complete recalibration shaped by water, silence and open horizons. Inspired by the seasonal floodwaters of the ancient river, this signature ritual restores what modern pace depletes: hydration, rhythm and calm.

The experience begins with a peppermint and wild sage foot-cleansing ceremony, grounding the body and mind. An antioxidant-rich grapeseed and baobab full-body exfoliation follows, refining the skin and stimulating circulation. A deeply restorative river clay mask is then applied whilst you shift into a state of calm.

Continue your transformative journey with a nourishing Rhythm shea butter massage infused with black pepper, rosemary, wild sage and lavender, using deep, fluid strokes - unhurried and continuous, echoing the flow of the channels. Heated river stones are placed strategically and used to boost relaxation, soften held tension and regulate the nervous system.

The ritual concludes with a warm baobab oil scalp anointing and a quiet integration period, allowing the body to absorb both botanical nourishment and deep rest.

Complete your journey with a refreshing iced tea as you reflect inward and relish the wonder and beauty of nature.
