ESTATE HIGHLIGHTS

While you're with us, we invite you to explore the estate's rich cultural heritage, sustainable winegrowing, our varied culinary experiences, as well as our indigenous gardens featuring sculptures by leading South African artists such as Dylan Lewis and Manuela Holzer. (Feel free to ask us about our Art Walk.)

INTEGRATED NATURE AND FARMING

We are recognised as a WWF Conservation Champion and are committed to regenerative farming.

In the vineyards, our flock of Indian Runner ducks and Dexter cattle naturally manage pests and fertilise our soils. You might notice the insectary cover crops between the vines. They help to promote biodiversity and enrich microbial life in the soils. Look out for our market gardens as well, where we grow herbs and vegetables for our restaurants.

If you care to watch the ducks on their way to work (a favourite for many of our guests) they can be seen from the lawns daily at 09:00 and 12:00.
