PLATTE ISLAND DIVE SITE HIGHLIGHTS

TI ZAFER (A HIDDEN GEM)

A lagoon dive site featuring a sandy and turtle grass-dominated bottom. The highlight is a large porites coral head oasis, around which a vast array of fish species congregates. Divers can expect to encounter various rays resting in the sand and witness turtles and manta rays as the coral head acts as a cleaning station.

Time by boat: 5 minutes

Depth: 10 – 15 metres

GRAN SPEKTAK (BIG SPECTACLE)

Located on the southeast edge of the outer reef grooves features large canyon-like creases in the plateau, creating incredible topography. A dramatic landscape, turtles, rays, and tawny nurse sharks are often found hiding out in these grooves to escape the surge.

Time by boat 15 - 20 minutes

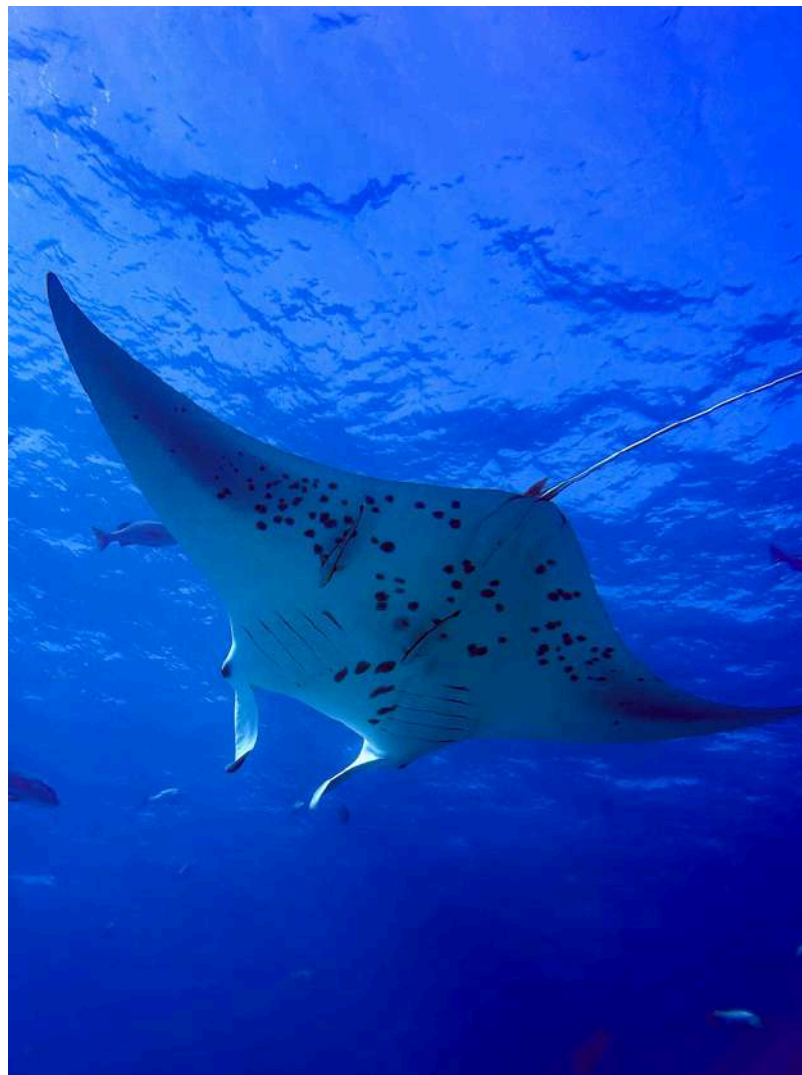

Depth: 6 - 12 metres

BAZAR TOUKOULER (COLORFUL MARKET)

This expansive coral garden is a visual feast as it is dominated by vibrant fields of lettuce coral, layered like underwater roses. Schools of fusiliers, snappers, and surgeonfish cruise in every direction, adding constant motion and energy. Keep an eye out for the big characters: graceful hawksbill and green turtles, stealthy nurse sharks, electric-blue lobsters, and the occasional silver flash of a barracuda. It's a lush, living reef, calm yet buzzing with surprise.

Time by boat: 5 minutes

Depth: 6 – 14 metres

BABONN (GROUPER GROUNDS)

On the northern side, this reef bursts with life both big and small. Schools of hefty snappers and groupers cruise along the coral, while anemones shelter playful clownfish in flashes of color. Turtles glide effortlessly over the reef, and stingrays rest in the nearby seagrass beds. Deeper down, colonies of garden eels rise and sway in the sand, giving the dive a touch of magic. Babonn offers a beautiful mix of vibrant reef life, graceful encounters, and calm sandy stretches.

Time by boat: 20 minutes

Depth: 5 – 20 metres
