Legendary Expeditions

SONGA MIGRATIONAL CAMP (SOUTH)

Songa Migrational Camp follows the path of the Great Migration, relocating twice yearly between northern and southern Serengeti. Guests are granted a front-row seat to the procession of more than two million wildebeest, zebra, and Thomson's gazelle as they traverse the great grass plains.

In its southern location, Songa is situated within Maswa Game Reserve, an exclusive-use wildlife protected area bordering the southern Serengeti. The camp's prime positioning amid the region's sweeping short grass plains offers guests exclusive access to the herds during their calving season – without any other tourists around.

- 1 Exclusive access to the calving season**
 Songa offers exclusive access to the calving season, where an astonishing 8,000 wildebeests are born each day between January and March. This spectacle of life is incredible to witness — especially with scores of predators on the prowl for their next meal.
- 2 Private guide and vehicle included in every booking**
 Every booking includes a private guide and vehicle, ensuring a personalized and flexible safari experience tailored to your interests and preferences.
- 3 Night game drives**
 Explore the Serengeti after dark with night game drives. Here, you'll have the unique opportunity to observe nocturnal wildlife in their natural habitat, guided by experts who know the wilderness intimately.
- 4 Authentic cultural experience**
 Immerse yourself in the rich local culture with visits to a nearby Datoga village, where you can experience the traditions and lifestyle of the people who call this remarkable region home.
- 5 Exclusive-use partitioning**
 Songa offers exclusive-use partitioning, ensuring an intimate safari experience with family and friends.

Commitment to *conservation*

Leading our Tanzania wildlife management is our affiliate, the Friedkin Conservation Fund (FCF), a non-profit organization focused on impactful philanthropy and conservation initiatives throughout Tanzania.

Working in conjunction with our affiliates, FCFT is responsible for safeguarding two vast wilderness areas that form vital buffer zones to the Greater Serengeti and Ngorongoro Crater ecosystems. To do this, FCFT engages the communities that share the land with us as partners in conservation and collaborates with stakeholders in effective wildlife management and research.

Community empowerment is the cornerstone of FCFT's work. This includes implementing initiatives aimed at education, improving health, and providing training in sustainable income-generating opportunities for communities neighboring our protected wildlife areas. Through these efforts, FCFT aims to uplift local communities and demonstrate the value of protecting these ecosystems. Combined with conservation projects such as anti-poaching, wildlife monitoring, and habitat management, this holistic approach enables FCFT to make a tangible impact in its efforts to protect this vital wilderness.
