Travel with The Oyster Collection

The Oyster Collection operates its own fleet, with professional drivers and knowledgeable guides who know the region as well as they know the route. From the moment you're met to the moment you arrive at your Oyster Collection destination, every part of the journey is looked after by the same team.

Cape Town City

The most enjoyable way to get to know Cape Town is one neighbourhood at a time. From historic streets and colourful communities to galleries, markets and local favourites, this tour reveals the city through the places that shape everyday life.

Cape Peninsula

Some of the Cape's most memorable scenery lies beyond the city. Follow the coastline to the Cape of Good Hope, passing beaches, fishing villages and dramatic viewpoints before returning along the shores of False Bay.

Cape Winelands

Franschhoek is known for wine, but the valley offers far more than its vineyards. Spend the day discovering local estates, mountain scenery and the food, wine and people that continue to shape the valley.
