

MALCBA

PRIVATE GAME RESERVE

AFRICA'S MOST EXCLUSIVE
SAFARI SANCTUARY

WELCOME TO MALOBA

On more than 20,000 hectares of pristine wilderness near Kimberley, Maloba offers one of Africa's most exclusive safari experiences.

With only five luxurious suites and a maximum of ten guests, the reserve is defined by privacy, refinement and conservation at its core. Here, luxury is not added to nature, it flows with it.

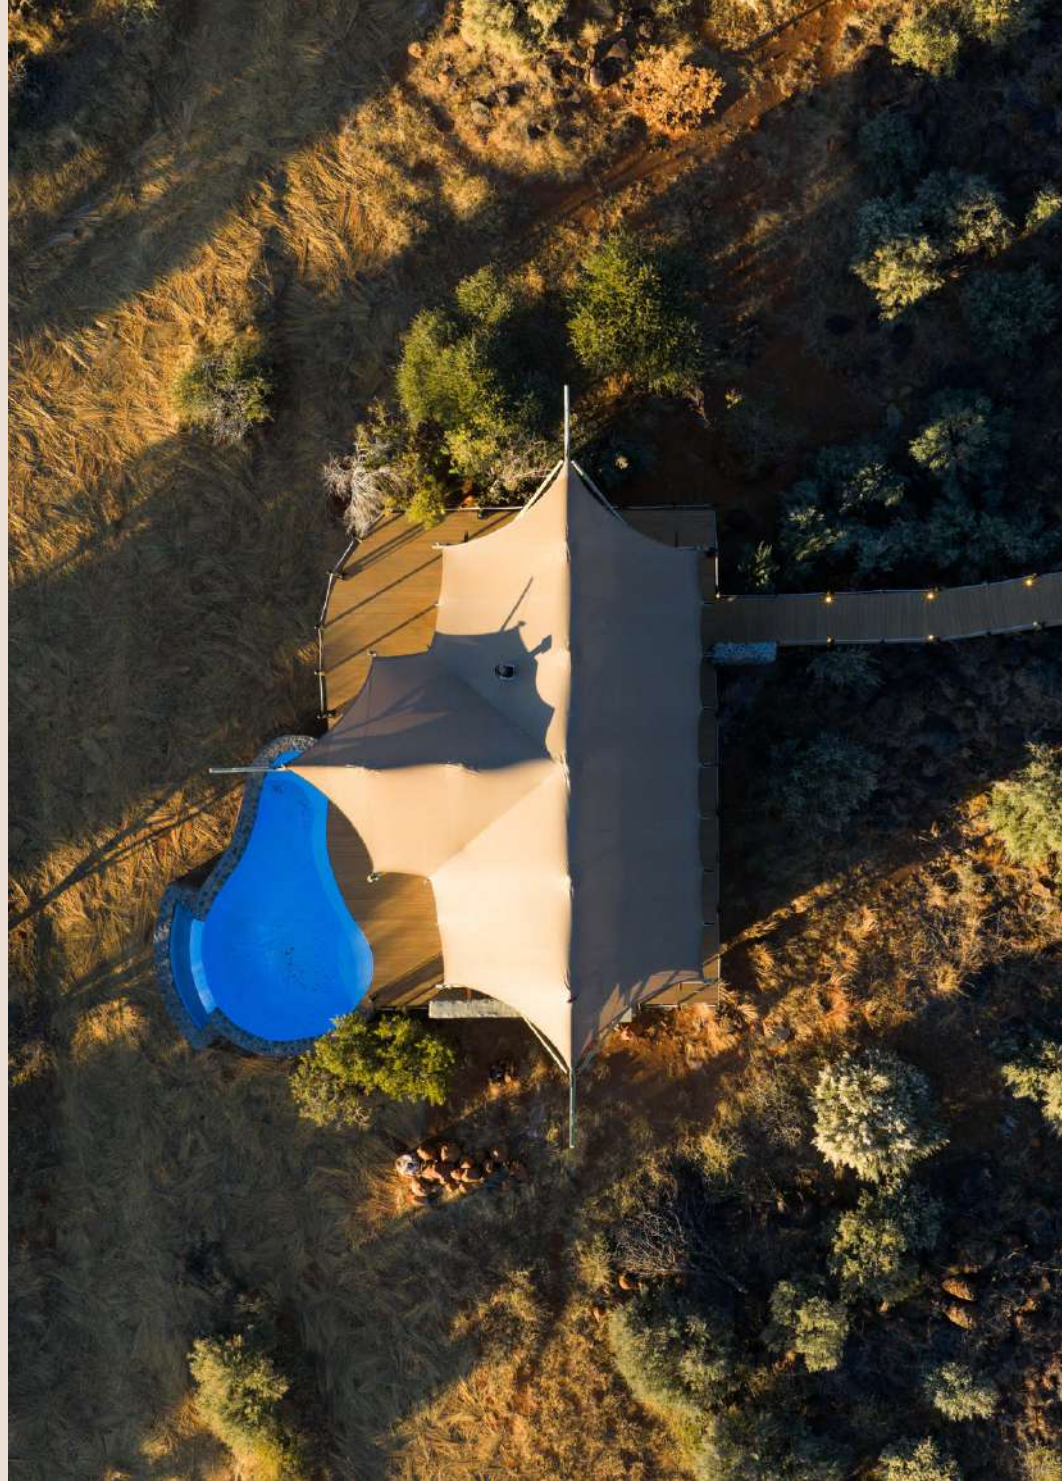

OUR SUITES

Each Maloba Suite blends contemporary comfort with African authenticity: plunge pool, indoor and outdoor showers, fireplace, king bed and private deck.

The Diamond Suite is Maloba's crown jewel, with a larger pool, outside firepit, panoramic deck overlooking Didimala's thornveld and its own safari vehicle. Guests also enjoy the exclusive Diamond Nights experience, available only here.

OUR MAIN LODGE

The heart of Maloba is the main lodge: refined lounges, a restaurant, terraces for sunset drinks, and a campfire under the stars. It is a space to gather, savour and celebrate, designed with discretion and comfort in mind.

LUXURY FARM & GARDENS VILLA

Designed for families and small groups of up to eight guests, the Farm & Gardens Villa offers the privacy of your own exclusive safari residence.

Located beside Maloba's flourishing Farm & Gardens, it combines elegant indoor and outdoor living with the personalised service of a private chef, creating a seamless and unforgettable safari retreat.

FARM & GARDENS

More than a garden, the Farm & Gardens is the heart of Maloba's culinary philosophy. Seasonal vegetables, herbs and fruit are grown with care, while horses roam the surrounding paddocks and every harvest inspires the dishes served throughout the reserve.

From wandering through the gardens to enjoying long farm-to-table lunches, every visit offers an immersive experience rooted in nature.

SAFARI & WILDERNESS

Twice-daily game drives in the morning and afternoon reveal Maloba's extraordinary landscapes and wildlife, from rhino and cheetah to rare nocturnal species. On request, night drives bring the reserve alive in a completely new way, offering the chance to witness the bush at its most mysterious. Lions are expected to arrive in 2026, bringing an even greater dimension to Maloba's wildlife experience.

MALOBA

DEFINITION

[ma'lɔba] noun
the day before yesterday

ADVENTURES BEYOND THE SAFARI

For travellers in search of something extraordinary, Maloba presents a collection of adventures found nowhere else.

Take to the skies on a helicopter safari and witness the vastness of the reserve from above, spotting herds and landscapes that stretch beyond the horizon.

Feel the freedom of horseback riding at our Farm & Gardens, surrounded by space, stillness and natural beauty.. For those drawn to skill and precision, our private shooting range with expert guidance offers a safe yet exhilarating challenge.

Discover a slower pace during our farm & gardens tour, exploring Maloba's sustainability, seasonal produce and a relaxed lunch inspired by ingredients grown on the reserve.

Evenings bring the perfect conclusion, with signature bush dinners lit by lanterns, dinners at the restaurant or sunset drinks that transform each day into something unforgettable. Every menu is crafted with care, tailored to dietary preferences and vegetarian cuisine.

THE MALOBA CONSERVATION FOUNDATION

At Maloba, conservation is the foundation of everything we do.

More than 20,000 hectares of wilderness have been restored, creating a sanctuary where nature reclaims its course and over 330 species of wildlife and birds thrive.

Guests are invited to take part in this work by joining a **rhino GPS replacement** and assisting rangers with **buffalo ear-tag removals**. These rare encounters can be booked as part of your stay and offer an authentic glimpse into conservation in action.

YOUR CONTRIBUTION TO CONSERVATION

Restoring the land, protecting wildlife, and preserving the natural balance of our ecosystem. Every contribution helps sustain habitats and supports our dedicated Anti-Poaching Unit that safeguards rhinos and other wildlife day and night.

Together, we work toward a self-sustaining wilderness where nature thrives freely, just as it was the day before yesterday.

EXTRAORDINARY WILDLIFE

Maloba is home to extraordinary wildlife, from white and black rhino to cheetah and buffalo, together with rare species such as aardvark, aardwolf, bat eared fox, brown hyena, caracal and the black footed cat. With greater chances of sightings here than in Kruger, the reserve will become even more remarkable with the reintroduction of lions in 2026.

CULINARY JOURNEY

Gastronomy at Maloba is designed as an experience in itself. Each menu reflects a dialogue between Africa's finest ingredients and international inspiration, created with precision by our culinary team. From breakfast on the terrace to long, lingering lunches and multi-course lodge dinners, every meal is crafted to surprise and delight.

Dining settings change constantly, ensuring no two meals are alike: an elegant evening in the restaurant, a starlit bush dinner surrounded by lanterns, or a seasonal farm-to-table lunch infused with the freshness of the reserve's gardens. These moments are paired with an exclusive wine cellar that showcases South Africa's most celebrated wineries alongside select international vintages, curated in collaboration with renowned winemakers.

Food and wine at Maloba are more than sustenance, they are part of the journey, an expression of the land and culture, shared in settings that turn every meal into a memory.
