

TUMANI
FAMILY TENT

The Family Tent at Tumani Tented Camp consists of two spacious double/twin en-suite bedrooms under one canvas roof, connected by a small central lounge.

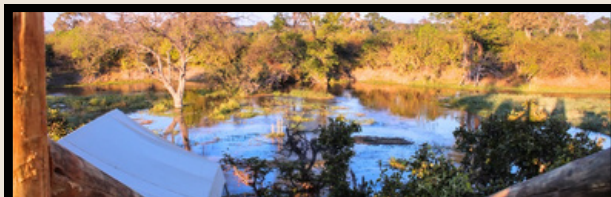

Guests enter the Family Tent through the central lounge, with each bedroom then having its own separate entrance from this shared space. Both bedrooms are fully self-contained, each with a double or twin bed beneath a mosquito net, writing desk and chair, small sofa, and a private en-suite bathroom with a flush toilet, indoor and outdoor hot-water showers, double vanity, wardrobe and safe.

A shared veranda overlooks the river. A walkway to the back of the tent provides access to the private star deck. The star deck sleeps two guests at a time, allowing families to take turns spending a night under the stars during their stay. Two guests can sleep on the star deck one night, with another two enjoying the experience the following night.

TUMANI
FAMILY TENT

The Family Tent is the closest guest tent to Tumani's main area, making access to the lounge, dining area and pool particularly convenient for families travelling with children.

While designed with families in mind, the configuration works equally well for adults travelling together. With two separate, fully en-suite bedrooms and a central shared lounge and veranda, guests can enjoy their own private space while still sharing the Family Tent as a whole.
