NOTES		
Anyone who's been on a safari knows that no two game activities are ever the same! At African Monarch Lodges we offer morning and afternoon game drives, boat cruises, morning walks, fishing, as well as an extraordinary visit to our Sustainable Cultural Project. Activity times will vary depending on the season. Guests traverse within the Bwabwata National Park, inside Africa's largest conservation area where it is known that around 30,000 elephants roam these plains. It is a birders paradise with 450 bird species to identify. Please be informed of the below hints and tips to make the most of your time in the bush: • A good camera, although care should be taken when using a flash – some of the animals aren't particularly keen. • Binoculars. • Always bring sunglasses, a hat, sunblock, insect repellent and in the winter months a sweater or fleece, especially in the early mornings and evenings. • We provide blankets and hot water bottles in winter if it's cold, and ponchos if it rains. • It's best to wear pale and neutral colours when on the wild experiences so not to attract the animals' attention any more than is strictly necessary! • Closed shoes are required for bush walks. • We do provide basic fishing tackle, but you are welcome to bring along your own. Should you lose any of our tackle it will be charged additionally.
