SINCE 1901

A house with a past

The story of Gracious Whisp begins with one of Windhoek's early residences. Its restoration honours the proportions, detail and quiet dignity of the original house while allowing a new chapter of Namibian hospitality to unfold.

Historic character remains present without becoming nostalgic. Original sensibilities are balanced with contemporary restraint, creating a property that feels established, personal and entirely of its place.

CRAFTED IN NAMIBIA

Designed around rest

Every room carries a distinct expression of Namibia through custom-made artwork by local artists. Landscapes, wildlife, culture and tradition become a tapestry of views across the hotel.

Furniture and textiles are made specifically for the property, while lighting fixtures are finished by hand. Natural textures, warm tones and understated detailing create interiors that feel considered without excess.
