WELCOME TO DUSTY ELAND CAMP

Dusty Eland Camp is the latest addition to our safaris family.
The camp has six sleeping tents, and we want you to feel as at home as we do. Please relax and enjoy the freedom and peace that has always made Tumaren Conservancy so special to us.
Please let our staff take care of you and let your guide know if you have any special requests or interests.

DINING & SITTING ROOMS

There are two tents central to the camp and you are welcome to relax here as you wish. Please ask the waiter for anything you need e.g., tea, coffee, water or drinks. There is a toilet behind the dining tent.

SHOWERS

The water comes from our borehole and goes through a demanding reverse osmosis filtration system. Please use the water carefully in this arid environment. The water is heated by firewood and solar. Towels & dressing gowns are provided and if you need a fresh towel or dressing gown please ask camp staff. Should you wish to buy one of our dressing gowns please ask.

BATHROOMS

Our showers are are en suite and it is safe to walk to the bathroom at night but always please wear flipflops or sandals. There are flush toilet which works efficiently and bucket shower with hot water. Please do not throw anything apart from toilet paper in the toilet. There are bags and bins provided for any extra items.

DRINKING WATER

Please only drink the water in the bottles provided. The water is filtered by our team and is safe to drink. Drinking water is provided in the main tent as well as in the bathrooms.

SECURITY/ SAFETY

The camp has a bush fence at the back including the kitchen, staff accommodation. NOTE: There is no fence in front of the tents, and this is a wildlife so please do not wander off without one of our team. There is always a security guard in the camp at night and you might hear him walking around sometimes or lighting the fires for the hot water early in the morning. His job is mostly wildlife related, as in asking elephants to not break our trees. Please blow the whistle should you be concerned and someone will come to your tent.

*Please do not walk alone. Your guide will take you walking.

MAKE YOURSELF AT *home*

LIGHTING & CHARGING

The tents are lit by solar power that you switch on as you enter the tents and the bathrooms. Please switch off all these solar lights when you are not using them to save limited power. There are charging stations to charge your phones and cameras in the sitting room. NOTE: If the weather is very cloudy the solar system is under pressure and we will then take items to the main office to charge.

LAUNDRY

Please put your laundry in the basket provided. We do not wash delicates but can provide the soap for you.

TIPPING

We have a tipping envelope should you wish to leave the team and your guide a tip. There is the option of tipping by credit card or Mpesa via Thenks or cash. Please give the envelope to your guide/ staff at the end.

FIRE

In case of a fire you will be alerted and meet in the Car Park at the back of the camp.

ACTIVITIES

Please see the activities notes card.

PATHS

Each tent has its own private path to enter from.

ROBERT GLEN'S SCULPTURES

Robert was Kerry's father and he took the whole family on safari from a very young. His sense of adventure and interest in wildlife was an inspiration to her and is largely why she works in safaris today. The sculptures in the mess areas and around camp are Robert's. Please enquire or check out his website if you are interested in seeing and buying more of his work.

SMOKING

Please smoke on the veranda of your tent or outside the tents and please be very careful when putting out your cigarettes. This is a dry environment and fires start easily.
