Sometimes the Bride & Groom just want a beautiful space with a great view to have their wedding at.  
If this is you, then we have you covered.

You would need to arrange EVERYTHING you need for your wedding day.

Our venue has a large gazibo area that you can set up in, a kitchen area for you caterer and abloutions for the guests  
There is no electricity up there so you need to concider this, you are able to bring your own generator.

With regards to parking. You probably don't want to have vehicles in the background of your photos.

Best thing is to arrange everyone to park on the 1st Vlei (they will be shown to it) and have a bus running people up & down.  
Guest are limited to the campsite area

*Pelase be sure to read our T's & C's with regards to any Weddings.*
