THE NAM NGUM LAKE

A HIDDEN GEM

LOCATION: ON THE OUTSKIRTS OF VANG VIENG

*How to reach the Sanctuary: By private minivan or train
(please ask the reception for further information as we may take care of your bookings)*

Transfer by train to Vang Vieng!

The town of Vang Vieng is most famous for its lagoons, its caves and the splendid karst landscapes that surround it, reminiscent of a land-based Halong Bay.

The Nam Ngum Lake has a rich history and is actually a large artificial lake dating back to the early 1970s when the first hydroelectric dam was built in Laos on the Nam Ngum River.

The Sanctuary Nam Ngum Resort is a little piece of paradise still unknown to travelers, nestled in the middle of nature. It offers a superb environment for non-motorized activities (swimming pool, pedal boats, kayaks, bicycles...) and allows an immersion with the possible meeting of locals including a community of fishermen installed on its banks. A space dedicated to nature that calls for relaxation
