## EXAMPLE OF A TYPICAL DAY

Morning wake-up and activity times vary depending on the season, available activities, and wildlife movements. The day begins with an early morning wake-up call, followed by a light “grab and go” breakfast of muesli, yogurt cups, and fruit before departing on the morning activity. Guests return to lodge for a hearty meal and some relaxation time, followed by a visit to the Ongava Discovery Centre and Ongava Research Centre. In the late afternoon, tea is served before the next activity begins. The day concludes with a return to lodge to freshen up, enjoy evening drinks, and dine under the stars, perhaps finishing the night with a quiet nightcap around the fire.

## ELECTRICITY & WATER

Power throughout the lodge is supplied by solar energy. Each tent is equipped with 220V electricity to power fans and lights, and plug points are available for charging batteries or operating small electrical appliances such as sleep apnea machines, hairdryers, and electric shavers. In major cities, electrical appliances run on 220/240V with round 3-pin, 15-amp plugs. While some lodges may provide adaptors (3-prong round, 3-prong square, 2-prong round, or 2-prong flat), it is recommended that guests bring their own adaptors to ensure compatibility with their devices.

## ONGAVA GAME RESERVE

On the southern boundary of Etosha National Park and forming a buffer to the Park lies Ongava Game Reserve, a 30 000-hectare (74 129-acre) private reserve. It is a haven to large concentrations of wildlife: notably lion, wildebeest, springbok, gemsbok, Hartmann's mountain zebra, red hartebeest, giraffe, eland and the largest population of the endemic black-faced impala outside of Etosha. The Reserve is also known for the successful reintroduction of white and black rhino. Ongava also provides easy access to the prime game viewing areas of central Etosha, Namibia's flagship national park.

## HABITAT & WILDLIFE

Etosha Pan is the result of a geological shift that dramatically changed the course of the Kunene River. Its 5000 km<sup>2</sup> / 1 930 sq. miles (120 km / 75 miles across and 55 km / 34 miles from north to south) were formerly an ancient lake. Today the Pan is mostly bone dry, the stark, parched white surface giving the Pan its Herero name, "Great White Place." The edges of the Pan give way to a surprising variety of vegetation types: from woodland and broad swathes of mopane, to open acacia-strewn plains and grasslands. Fringing the Pan are several productive waterholes that sustain the high density of large mammal fauna, from elephant and lion to vast herds of springbok, wildebeest, zebra, giraffe and gemsbok.

## GAME VIEWING

Guests at Ongava Game Reserve have the opportunity to view game both on Ongava and in neighboring Etosha National Park. Large herds of plains game concentrate around the waterholes in the dry season, making for exciting wildlife viewing. Most general wildlife species are present on Ongava Reserve as well as within Etosha. This includes springbok, gemsbok, wildebeest, Burchell's zebra, Hartmann's mountain zebra, waterbuck, red hartebeest, giraffe, eland, and the endemic black-faced impala. Lions move between the park and the reserve, and both black and white rhinos can be seen. Please see the species checklist for an extensive list of creatures found on the reserve.

### **BIRDING**

Birdlife is prolific on Ongava with 340 species including Kori Bustard, White-tailed Shrike, Short-toed Rock Thrush, Hartlaub's Francolin, Rüppell's Parrot and raptors, such as Greater Kestrel, in abundance. Local specials include Namaqua Sandgrouse, Double-banded Courser, Yellow-bellied Eremomela, Spike-heeled Lark and Acacia Pied Barbet

### **LAUNDRY FACILITIES**

Laundry is provided daily (weather permitting) and included on the Fully Inclusive rate basis. Laundry slips are provided, which guests must include with their clothes. Although the utmost care is taken with laundry, Ongava Game Reserve cannot accept responsibility for any damage or shrinkage. It is therefore recommended that guests hand wash their own delicate items with the washing powder provided.

### **PAYMENT FOR EXTRAS**

The Namibian Dollar and South African Rand are the only legal tender in Namibia and can be used freely to purchase goods and services. Visitors may bring any amount of foreign currency into the country; however, Travelers Cheques and foreign currency can only be exchanged at any of the main commercial banks in the major centers of the country.

We recommend that guests make use of cash or credit cards.

Ongava Game Reserve accepts US Dollars, GBP Sterling and Euro as payment for curios, drinks, gratuities, etc. International MasterCard and Visa credit cards are generally accepted throughout Namibia. Holders of other cards are advised to clarify with a commercial bank whether their card is acceptable in Namibia. American Express is now accepted on the Ongava Game Reserve.

### **TIPPING & GRATUITY GUIDELINES**

We would like to emphasise that tipping is not a requirement and should be undertaken only by choice, dependent on the service received. If guests are pleased with the service provided, they may wish to add a nominal amount (subject to personal budget choice).

We recommend tipping your guide directly and making use of the gratuity box in the main area for the general lodge staff.
