MOBILE SAFARIS INFORMATION

Enjoy the luxury of visiting our fixed camps coupled with the excitement and flexibility offered by a fully serviced mobile safari.

Our mobiles visit some of the most sought-after wildlife areas in the world. The flora and fauna that guests will encounter varies enormously from mobile to mobile. Our mobile safaris cover seven prime wildlife areas within Botswana – the Xaxanaka and Khwai regions of the Moremi Game Reserve, the Savuti, Chobe National Park, including the Chobe Riverfront areas, the Central Kalahari Game Reserve, Makgadikgadi Salt Pans and Nxai Pan. Each region will allow the traveler to uncover the myriad and wondrous regional differences in the country. Our mobile safaris destinations are chosen for each individual safari and we go the distance to find the best campsite in the desired region. Each campsite is different, but they are situated in gorgeous areas throughout Botswana. Our mobile camp will take you out of the city, away from the hustle and bustle of daily life and back to nature, to a place unlike anything you have ever imagined. It is a unique experience for safari lovers and nature enthusiasts. There are no concrete structures on the campsites – we bring and take everything we need, making it a mobile experience.

During the day, you explore the national parks and nature reserves together with your experienced guide. When the sun begins to set, you return to your mobile camp or drive to the new location; your camp crew will be expecting you with cold drinks and a warm dinner. Your wildlife experience continues as you stay on your private campsite and listen to the sounds of the natural world around you. This fully serviced mobile safari, you do not have to assist the camp crew in the daily camp life duties. You can sit back and enjoy, while our team takes care of your every wish. Driving in a separate supply vehicle, they will set up the camp while you are still enjoying your game drive and other activities. When you move to a new location, the team will dismantle all tents, bathrooms, and mess tent gazebo to set it up at the new campsite – leaving nothing behind. You have a private safari chef who will prepare all meals in their bush kitchen, catering to any dietary requirement. You will be surprised about the deliciousness open fire cooking creates.

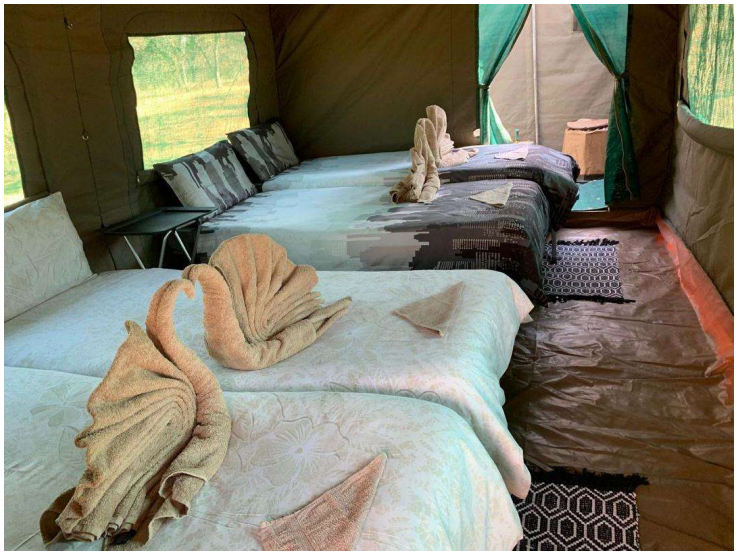

Travelling Botswana with a local and experienced guide is an amazing opportunity to get first-hand local knowledge about your surroundings. Your guide, who at the same time drives the safari vehicle, know the national parks and their inhabitants inside and out.

No safari day is the same, but your guide will know where to look, when to wait and see, what to expect from game drives and other safari activities in the different regions. We believe, a safari is only as good as the guide who accompanies you and we are proud to work with some of the best in the country. You can hand-over all responsibility to your guide, whether it is driving, logistics, navigation and ensuring everyone is happy and well-taken care of. As true safari professionals, they will ensure you feel well-taken care of and get the most out of your mobile camping safari in Botswana.

A symphonic awakening will inspire each morning. After tea and coffee around the fire, guests will explore the morning's unique curiosities and wild encounters on their game drive. A late brunch and a siesta will allow for a relaxed mid-day refresh. Afternoon tea will be offered before the evening drive. Dinner and the day's reminiscences will be shared under a canopy of stars. Then finally and gratefully to a bed in a comfortable, spacious tent, fully equipped with en-suite bathroom containing a bush-loo and bucket shower. Accommodation is in 3m x 3m dome style tents, fully equipped with twin beds, linen, side tables, lamps and en suite facilities consisting of a bucket shower and long drop 'loo. Family tents that are comprised of two rooms are available

Most mobile safaris depart from Maun or Kasane in the early mornings. Therefore, if guests are starting their itinerary with a mobile safari, it is recommended that they stay in town the night before. For those guests who are staying at one of the camps in our collection, air transfers to the starting point of their mobile safari can be arranged with Delta Air. For guests not wishing to spend a night in Maun or Kasane, they can be transferred by air charter to their first camping site and met by the guide and vehicle at the airstrip. Ideally for the clients starting off in the Central Kalahari, it is highly suggested that they fly into the site of the first mobile safari camp and visa versa if it is the last area they are visiting and they are departing on a flight out of Maun.

Generally speaking, however, game of all sorts are abundant. It is possible that guests will see lion, leopard, buffalo, elephant, hippopotamus, crocodile, giraffe, antelope including the rare lechwe, tsessesbe and sitatunga, otters, honey-badgers, hyena, wild dog, the shy pangolin, the nearly extinct rhino and a variety of the smaller wild cats such as civets, servals and genets. There are also reptiles – many species of snakes (most of them harmless), as well as several species of tortoise, terrapin, lizard, skinks, chameleon and gecko – not forgetting of course the Nile crocodile.

Then of course there are the birds, well over 450 species, that bring the deserts, forests, rivers and floodplains of the country alive. Many rare and endangered species call Botswana home, and birders come from all around the world in search of them.

Family tents can be set up for families travelling with children.

Further activities include mokoro activities in Moremi and boat cruises in Chobe, but at an additional charge. Please speak with the team for further information. If a group of more than 6 people are booked, a second vehicle will be supplied.
