

DUBA PLAINS CAMP

DUBA CONCESSION | NORTHERN BOTSWANA

The renowned Duba Plains Camp sits in the heart of the Okavango Delta.

A matrix of palm-dotted islands, flood plains and woodland, the private Duba concession is typical of the region's unique landscape. Duba Plains Camp offers 5 bespoke suites, in addition to a separate 2-bedroom suite aptly named the Duba Plains Suite, all designed by Dereck Joubert to blend into the forest and to take advantage of the shapes and textures of the shade but also to evoke the old classic African safari style of the 1920's. It is a wildlife connoisseur's getaway with literally thousands of animals in an almost endless pattern across the flood plains. All the suites are raised on recycled railway sleeper decking and offer guests amazing views of the surrounding floodplain and the steady stream of wildlife parading past.

This is the place that the owners, and National Geographic filmmakers, conservationists and explorers, Dereck and Beverly Joubert, chose for their home base. Great Plains Conservation is the only operator on the concession, thereby offering guests the ultimate opportunity for private wildlife sightings.

Duba Plains has developed a model that creates maximum benefit for the community nearby with lease funds, jobs and other projects like our Big Cats Caring for Communities, Lamps for Learning (solar jars) and Conservation Camp for Kids. This partnership ensures that these communities receive tangible and substantial benefits from wildlife conservation.

Duba Plains prides itself on its extraordinary wildlife experiences and intimate up-close exposure to the best of the best wildlife, from lions and leopards to elephants and buffalo and everything in between. Duba Plains is also known for interesting Kalahari species like Aardwolf and Pangolins.

Each of our camps have executive chefs and a hand-picked wine list. Duba Plains is no exception and boasts a cellar of a few hundred bottles of wine from friends of the Jouberts - winemakers who tell their story beyond the bottle, conservationists, people who have a community they support or something they give back besides being on the Great Plains Wine Selection for the quality of their wines.

While Duba Plains offers Botswana's best land safari as well as an Okavango Delta experience, this is truly a place to find an invigorating, yet peaceful all-round set of experiences, from wildlife viewing and birding or fishing from the boat, mekoro safaris, and exciting drives with knowledgeable guides and friendly hosts.

Duba Plains is a proud member of Relais & Châteaux.

ACTIVITIES

Safari Drives

Early morning, late afternoon/ evening or even full day safari drives take place in some of Botswana's best-adapted vehicles. Duba Plains Camp's Toyota Land Cruisers are uniquely designed to traverse the floodplains. We choose to accommodate four guests (or two couples) on a safari vehicle; however, if a family or group travels together, we would easily accommodate up to six guests. Our vehicles also have fridges stocked with drinks and snacks, ready for longer days out if the wildlife viewing is exciting and just too hard to leave.

Every day is different on safari. Safari Drives often start at sunrise, returning to camp for a late breakfast and departing again mid-afternoon after tea before returning just after sunset. However, guests can often spend the entire day out in the veld with a packed breakfast, lunch, and beverages if they wish. Our safaris will often continue into the night in search of nocturnal species. Night drives are incredibly prolific, and while they take patience, sightings commonly include lesser-known nocturnal mammals and even lion and hyena hunts.

Our schedule is flexible, and guests are encouraged to create their own itinerary according to their interests with guidance and recommendations from our professional guides.

Guided walks

Our guides are keen walking and birding specialists and therefore encourage guests to experience everything we have to offer.

Photography

- The customised Land Cruisers are open-sided, canopied and customised for photographers (raised roofs, photographic bars, multi-plug inverters);
- Custom built boat offering fixed camera mounts and swivel chairs specifically allowing for enhanced wildlife photographic opportunities from the water channels;
- Because we focus on photographic safaris, each of Duba Plains' guest suites has a professional camera set, including a camera body and lenses. Photos will be downloaded to a USB flash stick on guest's departure. Each suite comes with a pair of high-quality binoculars for guest use as well.

Boating

The flat-bottomed, aluminium boat at Duba Plains allows guests to explore the papyrus flanked channels of the Okavango Delta. Enjoy the amazing birdlife seen, or the occasional elephant or other wildlife seen on the banks. Marvel at the clear, cool water flowing under you and marvel at the journey that this life sustaining liquid undertakes. It has been said that a splash of Okavango Delta water unlocks unknown flavours and aromas from one's favourite whiskey. Boating is subject to water levels.

Fishing

A rod/reel kit is available for those who want to try their cast in the Delta between March and December on a catch and release basis - water level dependent.

Mekoro

Explore the Okavango Delta's permanent channels by mekoro (when water levels allow). This is truly a refreshing yet peaceful experience allowing for wildlife and bird viewing from a unique perspective.

Private vehicle option

Available for more flexibility upon request at extra cost, not compulsory for families travelling with children.

Great Plains Conservation

FOUNDATION INITIATIVE

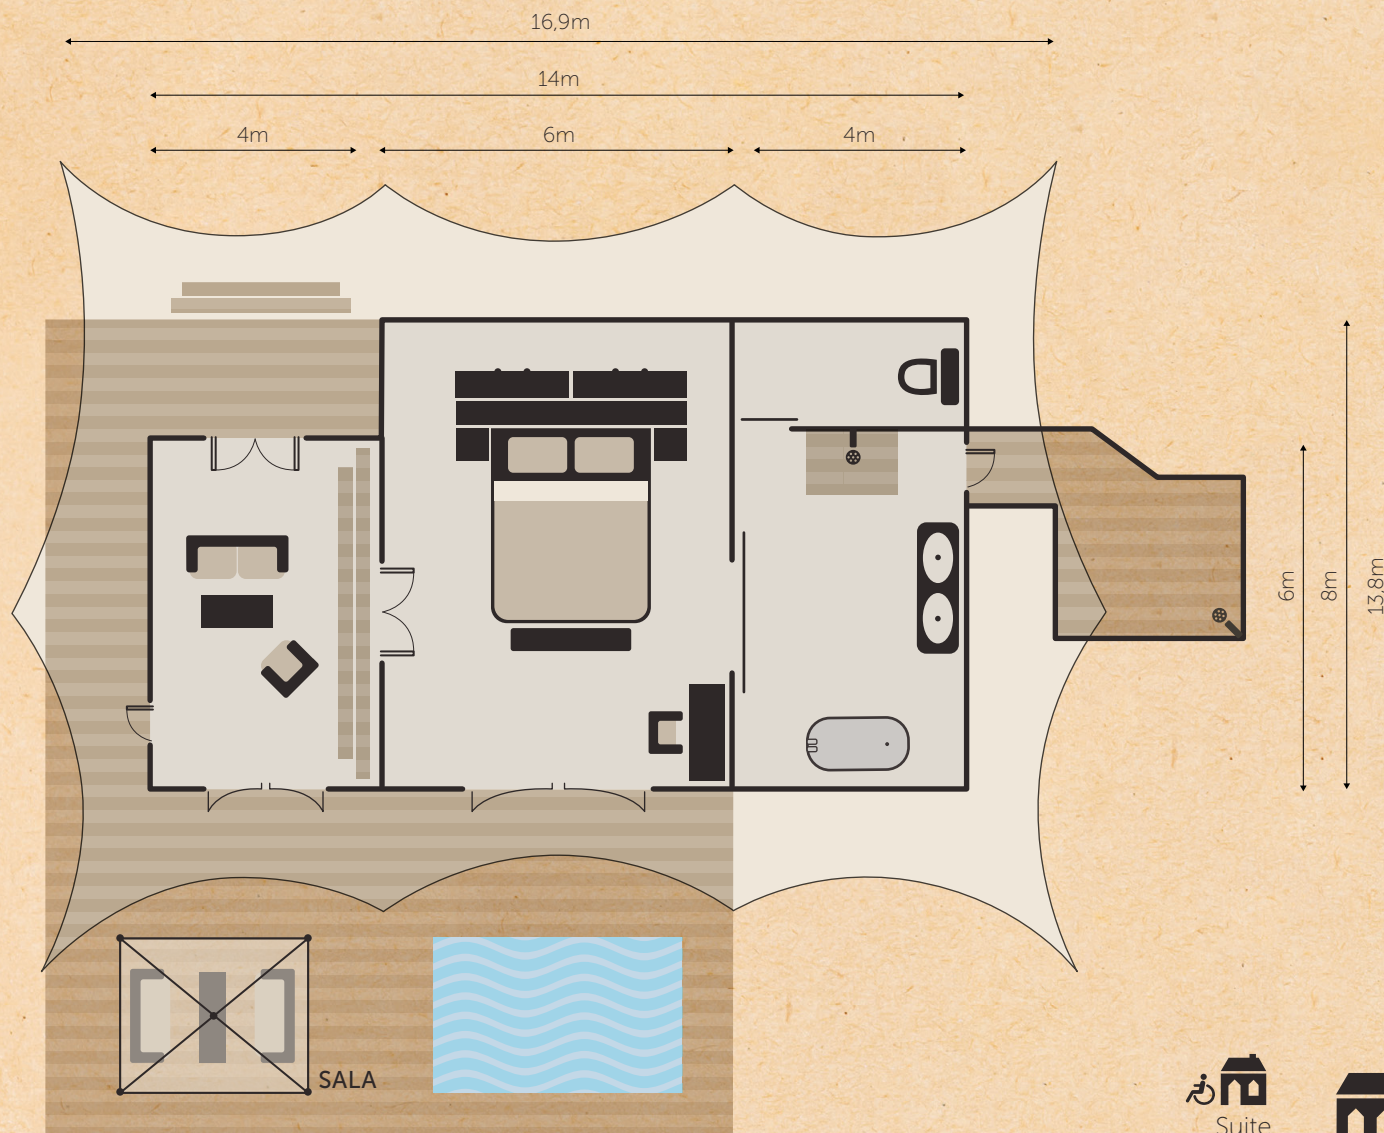

Rhinos Without Borders

In 2015, a rhino was poached every 6.3 hours in South Africa. In response to this crisis, Great Plains Conservation rallied various travel industry stakeholders to join forces with us and primary partner, andBeyond, to commit to increasing the Botswana population by 100 rhinos from poaching hot zones in South Africa to safe havens in Botswana. By moving 87 rhinos in and with the 63 additional calves born we exceeded expectations and achieved our goal. Now we must protect them, so we have made a transition from relocating rhinos to monitoring and protecting them in the face of a new wave of poaching continent-wide. Learn more about our efforts to save some of the last 20,000 rhinos left on the planet:

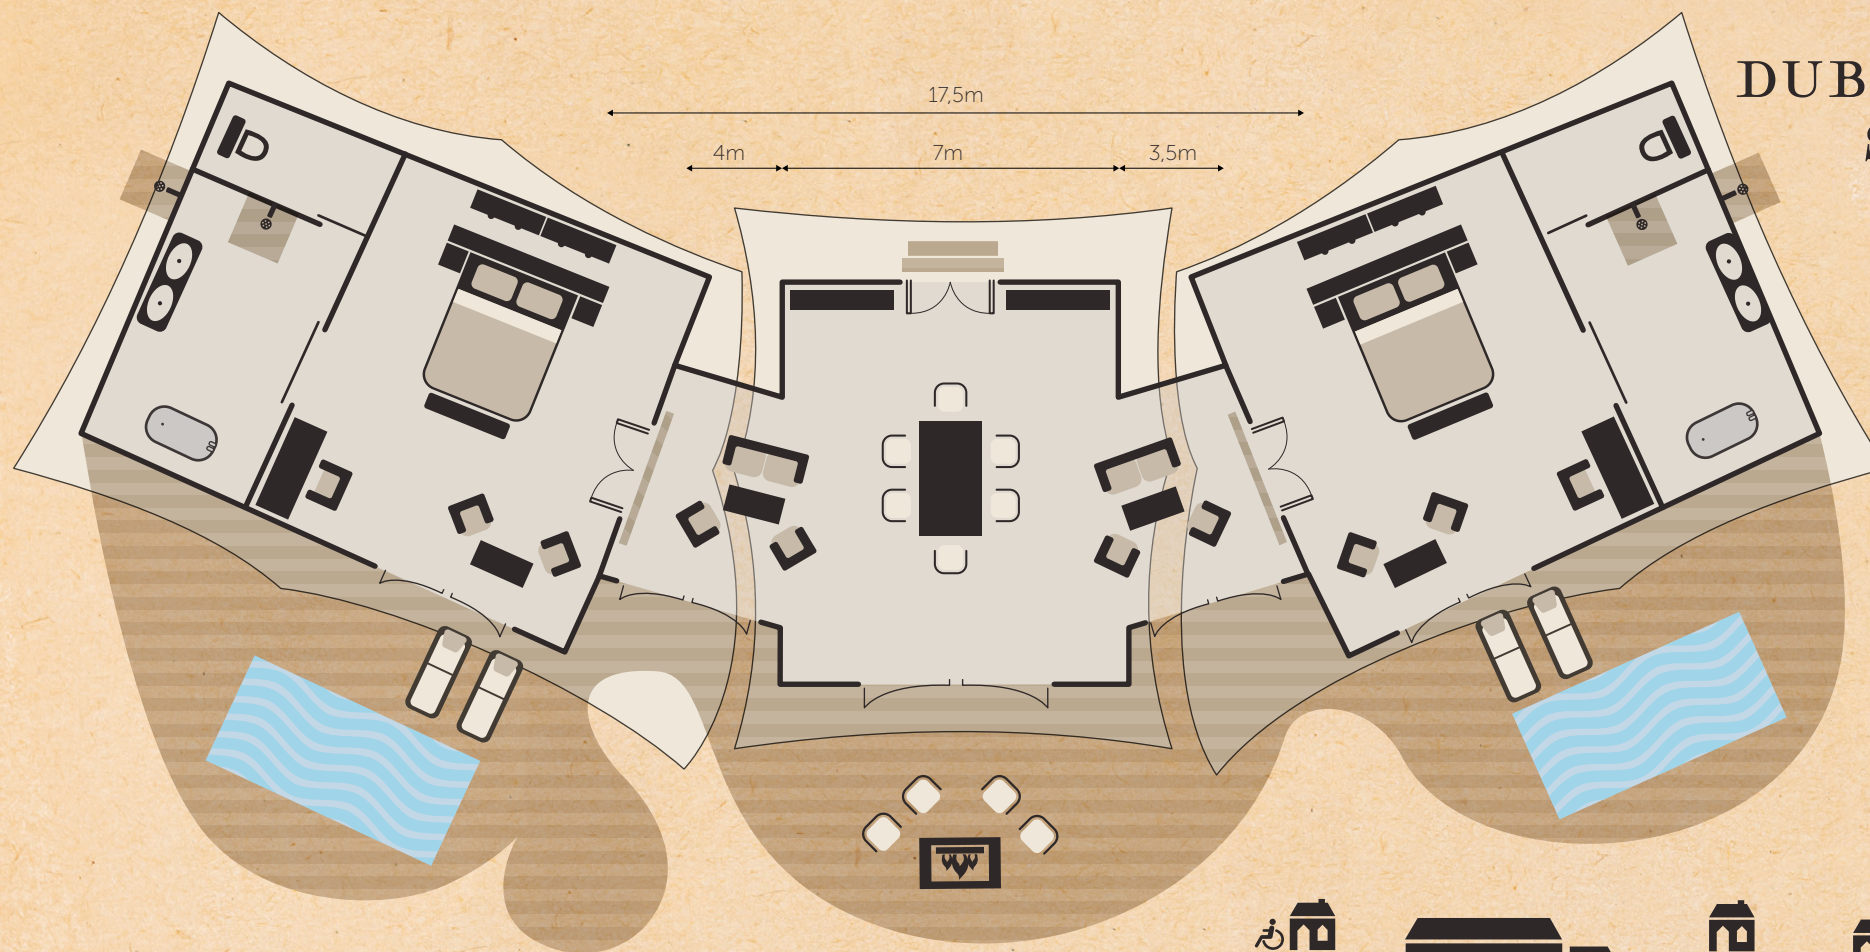

www.greatplainsfoundation.com

In addition to our own programs Great Plains Foundation keeps a list of school needs in the countries where we work. Needed items can be hand-carried by travelers or we can help purchase them locally.
