## JACKET SIZING GUIDE

To ensure you stay warm during your Arctic expedition, the Expedition Lätt Hoodie is a lightweight, pliant reinforcement jacket perfect for a range of winter activities. Padded with 100% recycled polyester free-fibre insulation that gives a down-like puffiness and loft. Perfect under a shell jacket and an excellent choice in wet conditions as it can handle some moisture without losing its insulating capacity. Hood, two hand pockets and an inside pocket that doubles as a pack bag. Part of Fjällräven's Expedition Series with iconic designs, sustainably produced materials and high reliability in cold conditions.
