

TIPPING FOR YOUR TRIP

There are often varying expectations around tipping. Please remember you are not obliged to give these exact amounts and if you would like to give more, or less, please do so. After all, a tip is a personal gesture of appreciation.

The suggested amount for tipping is US \$20 to \$25 per person per day spent on board.

The Captain will collect crew tips at the end of your voyage. The suggested tipping amount above is a guideline, and we suggest taking this amount and splitting it between the Captain and the crew.

On Polarfront, the currency is Norwegian Krone (NOK). A tab will be opened once on board the ship and all expenses are to be settled at the end of the voyage. Tips can be added to this.

Credit cards (Visa, MasterCard) are accepted and you can also pay in USD, EUR, GBP and SEK.

Alternatively, if guests wish to pay cash, please note that there is no ATM in Longyearbyen or any other service to withdraw cash while in town. There are ATMs available in airports on the way to Svalbard; it is easy to use these if with a credit card on one of the major networks.
