

QINTI

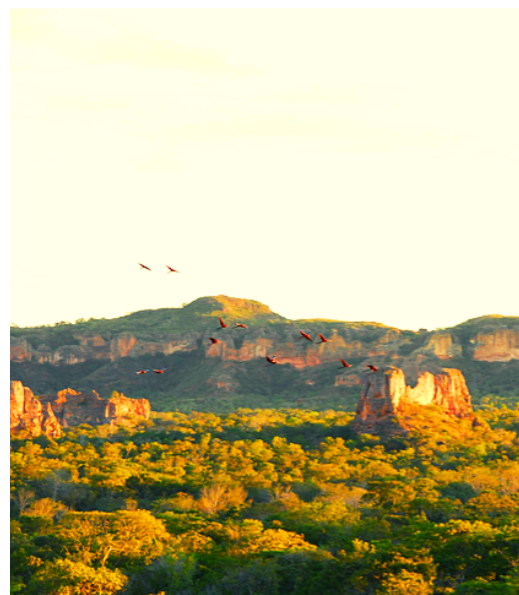

Your responsible Peru and Brazil Tour Operator . Quality Experiences since 2010

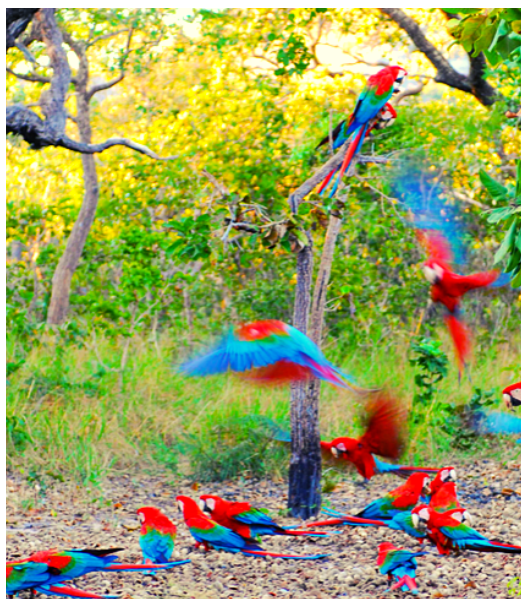

BRAZIL

Nature Piaui

Our wildlife destination in the remote area of Piaui features the Maned Wolf, Hyacinth Macaws, nut-cracking Capuchin Monkeys, and spectacular landscapes

Hyacinth Valley

In the dry forest of the Piauí state we have the opportunity to visit a family of local entrepreneurs who showcase the highly endangered Maned Wolf, the nut-cracking Capuchin Monkeys and Hyacinth Macaws. During the longer programs we explore the tabletop mountains or "mesas" and have more time to get great photographs of the smaller inhabitants like the Tufted-eared Marmoset, the Burrowing Owls, hummingbirds, and the many small parrots which live here. Six comfortable bungalows with private bathrooms and solar-heated showers are the base for all the activities in this unique area.

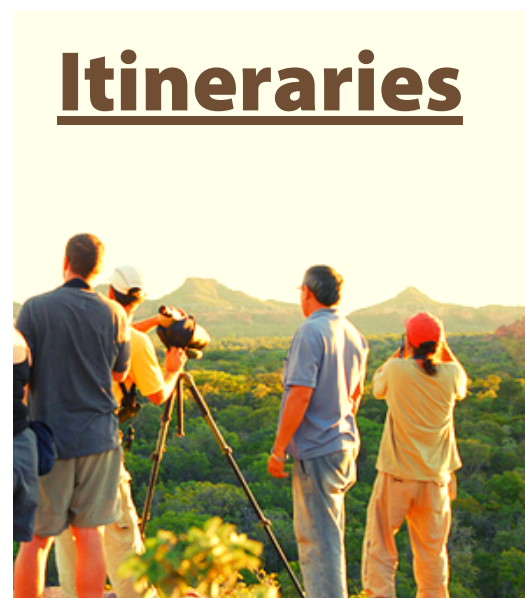

The Hyacinth Valley is a small lodge that belongs to a local family which is located in the middle of the Brazilian cerrado. Barreiras can be reached through flights from Salvador or Brasília.

We are a leading ground operator with sales offices in Lima and operations offices in Cusco and Cuiabá, Brazil. We offer our partners a reliable quality service, demonstrating our commitment to social and environmental responsibility.

Brazil has received the WTTC's Safe Travel Stamps for implementing the recommended health and safety protocols. Q'inti meets or exceeds the travel industry's health and safety protocols.
