Per person sharing, 3 pax	\$5,276
Per person sharing, 4 to 8 pax	\$4,931
Single supplement	\$419

# RIVERTREES COUNTRY INN

Rivertrees Country Inn looks out toward Mt. Kilimanjaro and is perfectly situated for exploring the mountain.

A charming country estate that was once a coffee farm, the inn still retains the nostalgic air of a well-loved homestead on a 10-acre natural extension of Mt. Meru's foothills. Rustic cottages are dotted along the river and in thickets of tall trees, while lush lawns and birdsong make for a peaceful and picturesque setting. Built in stages, the inn's design makes the most of the riverine nooks and bends.

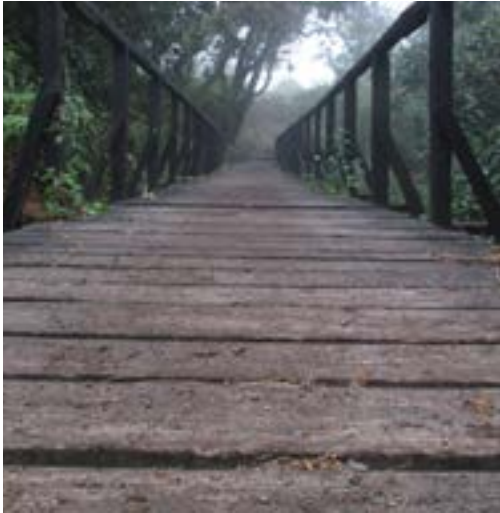

The restaurant prepares rustic yet tasty meals from fresh ingredients grown in the gardens or purchased locally. The recipes are old family favourites and popular with regulars.

The outdoor massage *banda* can be found by taking a picturesque walk through the cultivated garden. There, a talented masseur will provide stress-relieving treatment.

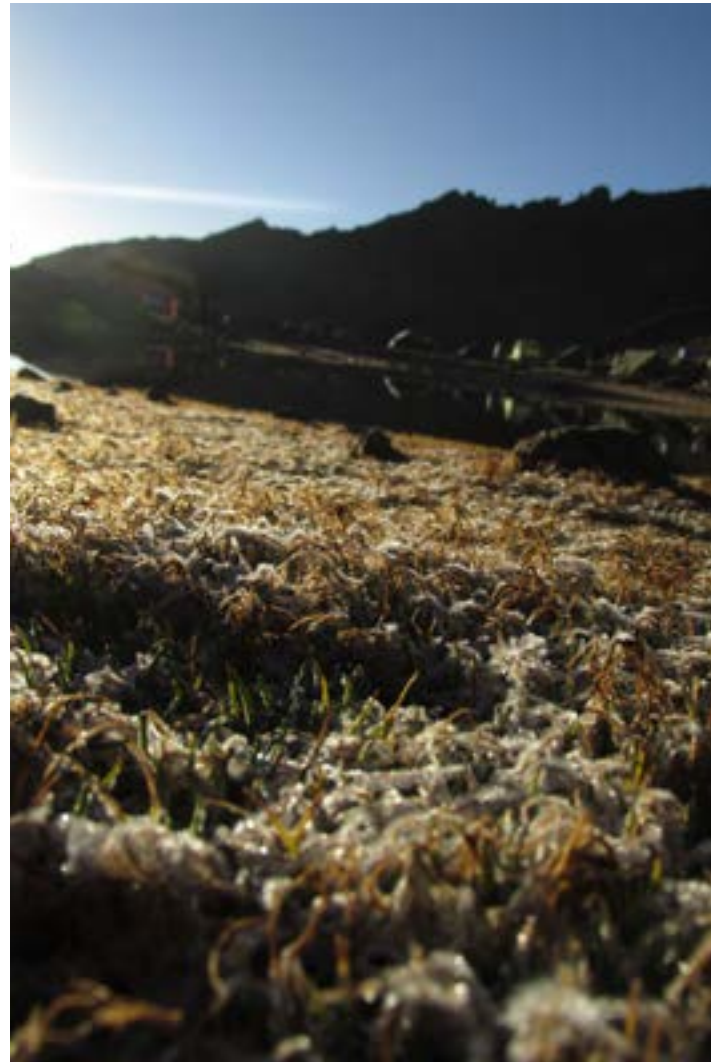

# MOUNT KILIMANJARO

## *Machame Route*

This is a 7-day Kilimanjaro hike starting at Machame Gate.

From Machame Gate hikers will ascend through the Afromontane forest and camp on the first night at the edge of the forest. The second day takes the party to the edge of the remnants of the Shira volcano. A steep incline takes walkers into the heath zone, filled with helichrysum and lobelia plants as well as various geologic features from lava tubes to glacial valleys. The third day is an ascent onto a steep, rocky ridge through heather and open moorlands, to Barranco Camp. The route then turns east and circumnavigates the main peak, Kibo, passing some spectacular features such as lava towers, giant steps and glacial valleys. The final ascent is from Barafu camp, with a night time ascent to Uhuru Peak via Stella Point. The descent is via the Mweka route.

## THE END

The end of the *Cheli & Peacock Safaris Kili Conquest*.

Other plans can be made to go to East Africa's soft white sandy beaches and historic coastal towns or include another safari destination.

### NOTES

- This is a private itinerary, please contact us if you would prefer a scheduled departure.
- Climbing the mountain is not like a normal safari, it is more strenuous and participants require a specific level of fitness; a fitness preparation guide is available.
- A specific packing list will be supplied for the trip.
- The trip is not suitable for children under the age of 9 years.
- Rates available on request for groups larger than 8 pax.

For 35 years, Cheli & Peacock Safaris, has operated East African safaris tailored to every traveller's needs. In some cases, our adventurer's want some guidance, so each year we create a small group of signature itineraries to inspire wanderlust. These itineraries are more of a suggestion than a template and can be developed further by our Safari Planners, who are passionate safari experts and can advise explorers on the perfect itinerary according to their interests, group, budget and travel dates.

At the forefront of everything we do is an understanding of sustainable travel, and therefore, we partner with organisations that share our approach to preserve Africa's unique and exceptional biodiversity. We know that our travellers are now far more inclined to stay at small boutique lodges and camps that are giving back to the local community and have a minimal effect on the surrounding environment. We appreciate that while vistas and wildlife are at the forefront of every safari experience, so is the modern visitor's desire to engage, at a deeper level, with the destination and its peoples. We do as much as we can to ensure that each of our guests has nothing but a positive effect on the places they visit, supporting local education programmes, conservation initiatives and development projects that have a lasting effect on those micro-economies, communities and ecosystems.
