ALFAJIRI VILLAS

Diani, Kenyan South Coast

Alfajiri Villas provide privacy, exclusivity and luxury on Kenya's famous Diani beach. Owner run and hosted, each opulent private villa has its own private swimming pool and access to the beach and warm water of the Indian Ocean. With delicious cuisine, the menus have a Mediterranean influence, with fresh produce sourced from local farms and of course the sea. Internationally recognised service is 24/7 and provided by a designated butler.

Enjoy the magnificent views and swim in the pool of your private villa, walk on the ten kilometre-long white sandy beach, relax and enjoy a massage, go snorkelling on the edge of the coral reef, play golf at the 18-hole course nearby, visit the Shimba Hills National Reserve or explore the local craft markets. Guests can do as little or as much as they like, hosts Marica and Fabrizio plan individual daily itineraries for their guests.

MAKING A *difference*

- Winner of 'Best Safari Cuisine' and 'Best Marine Safari Experience' in the Safari Awards
- Winner of Africa's Leading Luxury Hotel Villa in the World Travel Awards

THE END

The end of the *Cheli & Peacock Family Safari*.

Other plans can be made to go of safari to an East African destination, or depart for home.

- To tailor the safari, contact Cheli & Peacock Safaris.

For 35 years, Cheli & Peacock Safaris, has operated East African safaris tailored to every traveller's needs. In some cases, our adventurer's want some guidance, so each year we create a small group of signature itineraries to inspire wanderlust. These itineraries are more of a suggestion than a template and can be developed further by our Safari Planners, who are passionate safari experts and can advise explorers on the perfect itinerary according to their interests, group, budget and travel dates.

At the forefront of everything we do is an understanding of sustainable travel, and therefore, we partner with organisations that share our approach to preserve Africa's unique and exceptional biodiversity. We know that our travellers are now far more inclined to stay at small boutique lodges and camps that are giving back to the local community and have a minimal effect on the surrounding environment. We appreciate that while vistas and wildlife are at the forefront of every safari experience, so is the modern visitor's desire to engage, at a deeper level, with the destination and its peoples. We do as much as we can to ensure that each of our guests has nothing but a positive effect on the places they visit, supporting local education programmes, conservation initiatives and development projects that have a lasting effect on those micro-economies, communities and ecosystems.
