Main characteristics of "ADVENTURER" power catamaran

Type	Motor catamaran* (without sails) * [a catamaran is a boat with two parallel hulls connected by a central platform]
Model	Leopard 47 Powercat, charter version (built in 2009)
Builder	Shipyard Robertson & Caine – Cape town – South Africa
Overall length	14.50 meters (48 feet) with rear flap extension
Width	7,80 meters
Powertrain	Two 240 hp Yanmar inboard turbodiesel engines Model 4LHA-STP (2020 model year, reconditioned in 2026) Dual helm stations: interior saloon and flybridge
Performances	Cruising speed 14 knots / Max speed 22 knots
Cabins	4 cabins with double beds
Bathroom and WC	4 private bathrooms with electric toilets
Lounges	1 indoor lounge area + 1 outdoor lounge area + 1 flybridge lounge (upper deck)
Kitchen	Equipped kitchen (4-burner gas stove, gas oven, sink, freezer)
Bar	Elegant bar in the interior saloon, with one refrigerator and two freezers.
Fishing spaces	Rear area and large forward platform with 360° walk-around side decks
Customer capacity	8 people, with 2 people per cabin (double bed)

Description of the main deck (day area)

Central area (indoor lounge) :

Flooded with light thanks to 360° panoramic windows, it features a **large L-shaped sofa** at the front left - convertible into an extra bed for two persons, along with a **table seating up to 8 guests**.

Indoor lounge (Adventurer)

The forward starboard area of the saloon features a **full navigation station**, allowing for helming under shelter in bad weather.

Indoor helming station (Adventurer)

Kitchen station :

Located at the aft starboard side of the saloon, the **U-shaped galley** is equipped with a **countertop, storage cabinet, 4-burner gas stove, extractor hood, gas oven, and sink**.

Our chef will prepare delicious meals for you there, using fresh, flavorful ingredients - including homemade bread !

Kitchen station (Adventurer)

Bar :

Positioned at the rear left of the interior lounge area, **a lovely bar featuring wood and chrome tubing adds a touch of elegance and sophistication.** It is equipped with a refrigerator, two freezers, an ice maker, and racks for bottles and glasses.

Our server will prepare delicious cocktails for you there, tailored to your preferences!

Indoor lounge bar (Adventurer)

Access to the outdoor seating area is via the passageway between the kitchen and the bar.

Outdoor lounge :

An outdoor living area located at the stern of the catamaran, the outdoor lounge features **a large, fixed, extendable table seating up to 8 people** - perfect for meals or comfortably rigging fishing tackle, with **seating provided by the aft bench and additional chairs.**

Outdoor lounge (Adventurer)

Thanks to the flybridge above, accessed via a spiral staircase, **the outdoor saloon is fully shaded and protected from low-angle sunlight or rain** by removable side panels.

A **charcoal barbecue** is available on the railing at the back of the outdoor seating area, allowing you to enjoy delicious grilled meats, poultry, fresh fish, seafood, or vegetables - tailored to your preferences and our chef's suggestions!

Front platform :

The platform at the bow of Adventurer - situated in front of the panoramic windshield of the interior saloon - spans nearly 5 meters in depth and 7 meters in width. This creates a **vast, secure terrace - a remarkably spacious area that is truly unique for a catamaran of this size** - featuring a solid deck (unlike the trampoline netting found on conventional catamarans) and raised stainless-steel railings all around, allowing you to move about in complete safety.

Panoramic sunbathing area :

Thanks to the **deployable canvas sunshade** and our removable **cushions**, you can stretch out on the sunbed in front of the flybridge helm station for an even more exhilarating cruising experience! It is the perfect spot to relax while enjoying a commanding **360° view of the horizon**.

Description of the hulls (sleeping area)

The charter version of Adventurer, our Leopard 47 Powercat, features a perfectly symmetrical layout across both hulls, offering a total of four cabins and four bathrooms with toilets. The port and starboard hulls each contain two double cabins, with each cabin accommodating two people.

Cabins : They all feature a **double bed with a high-quality mattress**, as well as overhead and side portholes in the passageway, providing good natural ventilation. The forward cabins are slightly more spacious than the aft ones, thanks to the space created by the side passageway leading to the bathroom and toilet located towards the bow.

Port-side aft cabin (Adventurer)

Port-side forward cabin (Adventurer)

To ensure the best conditions for a peaceful and restful night's sleep, all Adventurer cabins are equipped with **wall-mounted fans** and electric evaporative **air coolers**.

Bathrooms and toilets : Each cabin has its own private bathroom with a toilet.

Forward starboard shower (Adventurer)

Forward port-side washbasin (Adventurer)

Electric toilet, forward starboard (Adventurer)

The four toilets on the Adventurer feature **electric flushing systems**. This offers greater comfort and convenience for our guests compared to the manual pumps typically found on standard catamarans. However, please ensure that nothing other than small amounts of toilet paper is flushed (to avoid clogging the pumping system).

A **waste bin** is provided for all other refuse.

Shower gel and shampoo are available via wall-mounted dispensers.

A **splash-proof toilet paper holder** ensures the paper stays dry at all times.

Aft port-side bathroom
(Adventurer)

Starboard aft electric toilet
(Adventurer)

Starboard aft washbasin / shower
(Adventurer)

On board the Adventurer, **mattress covers, bed sheets, and pillowcases** are changed every three days. **High-quality towels** embroidered with our logo are provided for our guests.

Bath towel (Adventurer)

Description of the flybridge (raised upper deck)

The "flybridge" : It corresponds to the raised upper deck and is accessible via a staircase from the outdoor saloon.

The forward section of the flybridge features a raised, central helm station, offering our skipper-guide optimal visibility of the surroundings, the foredeck, and the entire perimeter of the catamaran.

View of the flybridge (Adventurer)

View of the platform from the flybridge (Adventurer)

The flybridge cockpit features a **helm station** that serves as the captain's primary control point. It houses the **navigation instruments** (depth sounder, GPS with marine charting, VHF radio, and compass).

A **camera** monitoring the outdoor deck seating area displays the situation on a screen at the helm station, optimizing control for the skipper. To enhance safety at night, a **powerful remote-controlled spotlight** allows the area around the catamaran to be illuminated when needed (e.g., man-overboard situations, or approaching another vessel or a pontoon after dark).

At the aft end of the flybridge, a **small seating area** - featuring a bench seat and a table - offers a **space to relax and enjoy the fresh air** while sipping a refreshment. It can also serve as an additional dining area for large groups of guests.

Safety	4 buoys with rope, 12 life jackets, first aid kit

Tenders (2) : 3.5-meter Suzumar RIB and 3-meter rigid tender, with 5 hp engines.

"Fish and live on board" package

With our "fishing and life on board" package, you will appreciate the full functionality of our Adventurer power catamaran, **specially equipped for exotic sport fishing** !

The forward deck offers ample space to comfortably practice both horizontal techniques - such as casting and popping - and vertical methods like jigging, accommodating up to 8 anglers on board.

Trevallies caught on a popper from the platform

Bow fishing platform (Adventurer)

The sides of the catamaran, flanking the central saloon, provide **easy, safe passage** - aided by the guardrail - whether for fishing from the sides or moving aft to battle a large fish under optimal conditions.

Starboard side deck (Adventurer)

Port-side side deck (Adventurer)

To provide comfortable support while fishing, removable **cylindrical cushions** - covered in waterproof, UV-resistant fabric - are fitted to the railing all around the catamaran.

Cylindrical cushions on the railings (Adventurer)

Grouper double-header caught jigging (Adventurer)

To ensure you can stow your entire arsenal for exotic fishing, the Adventurer is also equipped with **numerous high-quality stainless steel rod holders** !

In total, the Adventurer features no fewer than **50 rod holders**!

Rear view with rod holders (Adventurer)

Rear-mounted rod holders (Adventurer)

Side rod holders (Adventurer)

Front rod holder (Adventurer)

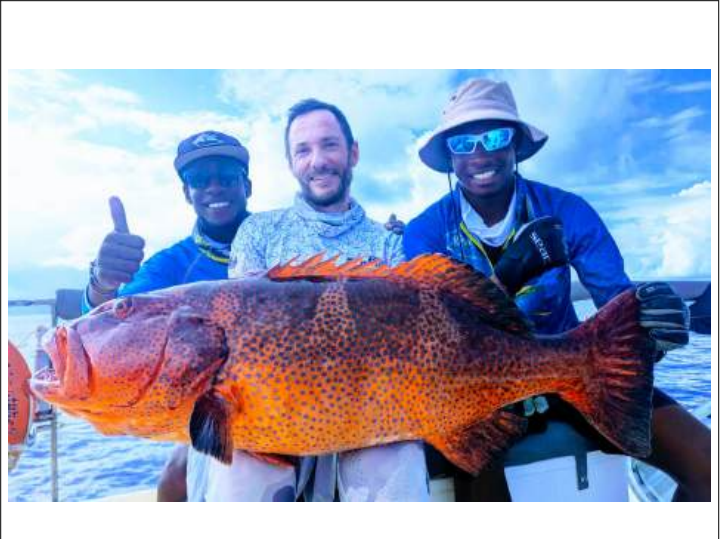

Finally, a **large Humminbird Helix-15 fishfinder/GPS (15-inch screen)**, mounted on the upright of the flybridge access stairs in the outdoor cockpit (saloon) area, allows you to comfortably view sonar data and the power catamaran's position.

Experience the Adventurer firsthand like if you were on it !
